## PREFACE

This report was produced by the staff of the Research and Economic Analysis Division of the Hawai'i State Department of Business, Economic Development & Tourism, Tourism Research Branch (DBEDT). The department is headed by Mr. Theodore E. Liu. This report was prepared by Mr. Daniel Nahoopii and Ms. Minh-Chau T. Chun, under the direction of the Division Administrator, Dr. Pearl Imada Iboshi, and with assistance from OmniTrak Group Inc.

Ms. Marsha Wienert, State Tourism Liaison, reviewed this report and provided valuable comments.

Hawai'i Visitors and Convention Bureau (HVCB) first published the Visitor Plant Inventory in 1964 and every year thereafter, except 1995 and 1998. HVCB did not conduct a survey in 1995 and did not publish hard copies of the report in 1998.

Act 156, Session Laws of Hawai'i 1998, transferred the tourism research program from HVCB to DBEDT. DBEDT has been responsible for collecting and disseminating data on Hawai'i's visitor industry since July 1, 1998.

As part of the tourism research program, in 2006, DBEDT conducted its eighth survey on statewide visitor units. This report provides the results of the visitor accommodation survey. Specifically, data on the number of visitor units, island distribution, type of property and class of rooms are presented. For the purpose of consistency, this report continues to use HVCB's definitions and format of reporting.

As in previous reports, island and district names were written in proper Hawaiian language orthography. However, individual property names were not written in the same manner unless the words were easily identifiable (i.e., island names).

This report is also posted on the DBEDT website: <http://www.hawaii.gov/dbedt/info/visitor-stats/visitor-plant/>

## **OVERVIEW**

## OVERVIEW

Total statewide visitor plant inventory in 2006 decreased slightly by 0.8 percent from the previous year to 72,516 visitor units (Table 1). Kaua'i county reported a decrease of 2.7 percent and O'ahu county reported a slight decline of 1.0 percent. Maui and Hawai'i counties both reported minor decreases of 0.2 percent.

Just under half (46.9%) of the statewide visitor units in 2006 were located on O'ahu. Maui county continued to have the second largest share of visitor units, followed by Hawai'i and Kaua'i counties. Hotels continued to comprise the majority (60.2%) of visitor units statewide. Condominium/hotel properties accounted for the second largest share of visitor units at 23.8 percent. Timeshare units accounted for 10.0 percent of the total visitor units followed by individual vacation unit properties (2.8%). Bed & Breakfasts and hostels each comprised less than 1.0 percent of the total visitor units (Table 2, Figure 2).

The inventory of hotel rooms, statewide, decreased 5.3 percent from the previous year while the number of visitor units in condo/hotel properties increased by 13.0 percent. Moreover, timeshare units increased by 5.0 percent. Bed & breakfasts units (-4.3%), apartment/hotel (-3.9%) and other (-4.3%) all decreased less than 5.0 percent. The number of visitor units at hostels decreased only slightly (-1.4%) while the number of individual vacation units statewide decreased by 17.4 percent.

The decrease in hotel rooms was felt most significantly on Kaua'i (-20.1%), O'ahu (-5.2%) and Maui (-4.8%), but was countered by the increase in condo/hotel units on Kaua'i (+25.1%), O'ahu (+25%), Maui (+4.3%) and the island of Hawai'i (+10.9%). The quantity of timeshare units rose on O'ahu (+15.8%), Maui (+5.8%) and Kaua'i (+.5%).

Statewide, there were a total of 7,271 registered timeshare units as of May 2006. This represented an increase of 5.0 percent from the previous year. All counties with the exception of Hawai'i county, reported an increase in the number of registered timeshare units. Just over 29.2 percent or 2,126 timeshare units in 2006 were registered on Kaua'i, 1,959 units were on Maui, 1,516 were on Hawai'i, 1,655 were on O'ahu and 15 units were on Moloka'i. The majority of registered timeshare units (62.6%) were listed under the timeshare category. However, 21.3 percent or 1,550 units were classified in the condominium hotel category, 12.2 percent (887 units) in the hotel category, and 3.9 percent (284 units) in the "Other" category (Table 6).

Of the 1,216 properties that responded to the survey in 2006, none reported any existing visitor unit inventory converted to timeshare between May 2005 and April 2006. However, three properties reported conversion of hotel type units to condominium type units before May 2006. The number of hotel units converted to condo/hotel type among these hotel properties amounted to 1,896 units (Table 11).

Visitor units categorized as "Standard" (\$101 to \$250 per night rack rate), comprised the largest percentage of the total units statewide in 2006. The second largest group of units were those classified as "Deluxe" (\$251 to \$500 per night), followed by those in the "Budget" (\$100 or less per night) and "Luxury" (over \$500 per night) categories (Table 4 and Figure 9).

Of the 1,216 properties in the current 2006 inventory, 1,187 properties reported their units by class (Figure 10 and Table 5). Over half of the condo/hotel properties (61%) categorized their units as “Standard.” Among hotels, 44.7 percent of the units were classified as “Deluxe” and 31.1 percent were “Standard” units. Hotels had the largest percentage share of “Luxury” units (15.8%) compared to other types of visitor accommodations.

By island, 82.9 percent of O’ahu visitor units were classified as “Standard” or “Deluxe”. Similarly, the majority of the visitor units on Kaua’i, Hawai’i and Maui were also in the “Standard” or “Deluxe” price range. In contrast, most of the visitor units on Lāna’i (95.6%) were in the higher-priced “Deluxe” and “Luxury” classes.

## **METHODS AND PROCEDURES**

## METHODS AND PROCEDURES

The 2006 Visitor Plant Inventory presents the results of DBEDT's enumeration of visitor accommodations in Hawai'i. Existing visitor accommodations as of May 1, 2006 as well as planned developments and additions to existing developments are catalogued.

Visitor Plant Inventory Survey: Information about transient accommodations was gathered mainly from a survey of existing visitor accommodation properties and management companies. Survey forms were sent to general managers, property managers and other individuals who could provide information about the property. The survey provided information about available units, planned additions and other information presented in this report. If no response was received, a follow-up telephone call was made to the property to remind them to complete and return the form. Subsequently, if still no response was received after the follow-up telephone call, an Internet search was conducted. If no response was received or no data was found on the Internet, but information was available from prior years (2003, 2004 and 2005), that information was included and so noted. If no survey form was returned and no information was available from previous years or other sources, the property was listed as a non-respondent.

An additional 111 properties identified as part of a detailed web search of "Vacation Units In Hawai'i" and "Hawai'i B&B" were also included in the mail-out and telephone follow-up methodology.

Association Survey: Continued in 2006, this survey's purpose was to gather contact information of associations whose members were transient visitor accommodations in the State of Hawai'i. Letters were sent to these associations to request member accommodation contact information, from which the mailing list was updated and new accommodations were contacted via mailing as described above.

Timeshare Properties: Information on timeshare properties were gathered through the survey questionnaire, which asked for information on the number of units *registered* as timeshare and units *operated* as timeshare. The number of units registered included those that were available for sale as well as those currently in use by visitors. The number of units operated represented the units that have been sold and were in use. The available timeshare units listed in Tables 2 and 3 and their related charts were the total number of registered units. The number of timeshare properties listed in Tables 2 and 3 were the properties solely classified as timeshare. However, the number of available units listed with the timeshare category included those units that were cross-listed under the other property types. For Tables 2 and 3, the timeshare units were not included in the count of available units for any property type other than timeshare type properties. On the 2006 Current Visitor Plant Inventory (pp. 30 – 52), the count of available units included the timeshare units associated with each property. To identify the exact number of registered and operating units for each specific property and property type, please see Table 6.

Property Changes: A section requesting information on property changes between April 2005 and May 2006 was included on the Visitor Plant Survey form in 2006. This section provided detail on increases or decreases in inventory by the specific property and detail on property inventory that was converted to timeshare or condo units.

Cross-Validation: A cross-validation process was conducted with an Internet search of key properties, and with room inventory lists provided by key county visitor industry executives and the Honolulu and Maui County Real Property Tax Divisions. Differences between information gathered and the 2005 Visitor Plant Inventory Survey were validated by telephone with the properties in question or with the property's website, if available. Through this cross-validation process, properties previously not part of the Visitor Plant Inventory, were added to the inventory upon confirmation of property information. Changes to inventory of properties currently in the Visitor Plant Inventory were also noted and the database revised accordingly.

Planned New Developments: Information about planned new developments was gathered with assistance from the four county Planning Offices. The information is reprinted here and includes projects and developments that have achieved some level of jurisdictional approval. That is to say, these developments are a step beyond the preliminary stages of development and have some "official" standing as planned developments.

Revisions to 2005 Data: In researching the 2006 report, additional information was discovered that warranted changes to the 2005 visitor accommodations inventory database.

1. Subtracted the 76-unit Royal Sea Cliff condo/hotel, Kona, Hawai'i, which was already listed as Outrigger Royal Sea Cliff Resort, timeshare, Kona, Hawai'i.
2. Added the 173-unit Mākaha Resort Golf Club, hotel, Leeward/Mākaha Side, O'ahu, which was left out
3. Added 140 units managed by Castle Resort to the Kiahuna Plantation, condo/hotel, Po'ipū/Kukui'ula, Kaua'i.

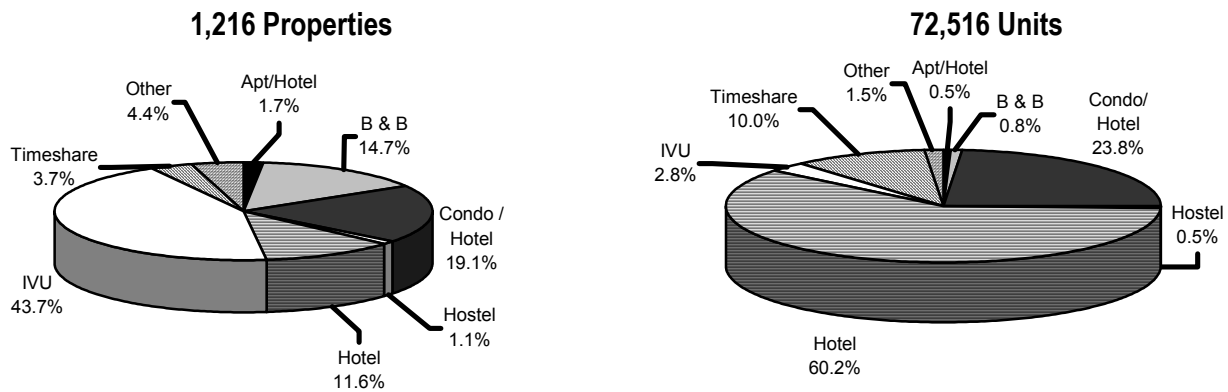

**FIGURE 1: EXISTING INVENTORY BY ISLAND**

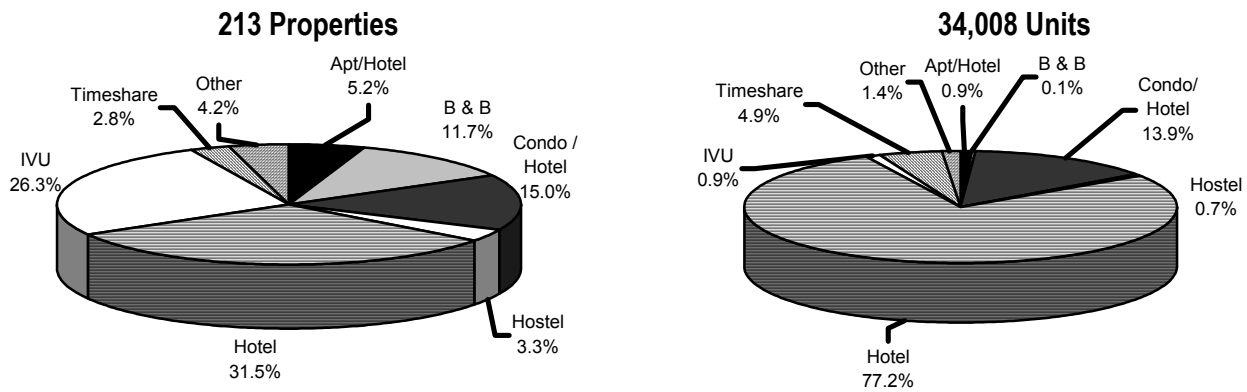

Statewide, there were 1,216 properties with 72,516 units for visitor use. O'ahu's 213 properties comprised only 17.5 percent of the State's total properties but nearly half (46.9%) of the State's total visitor units. The island of Maui with 281 properties accounted for 18,441 units or 25.4 percent of the State's total visitor units. The island of Hawai'i had 261 properties yielding 15.5 percent of the State's total or 11,247 units. On Kaua'i there were 8,002 available visitor units among 421 properties. Moloka'i had 34 properties which yielded 451 units. Lana'i had 6 properties with 367 units.

**FIGURE 2: SUMMARY BY TYPE - STATE**

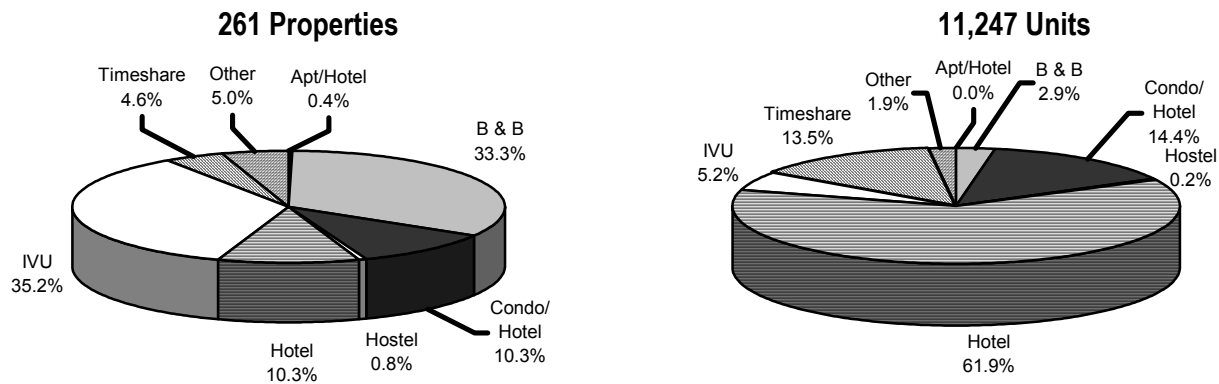

Hotels comprised only 11.6 percent of the State's properties, but accounted for the majority (43,637 units) of the State's total visitor units. ## EXPLANATION OF CATEGORIES

**Island** = Island on which the property is located

**Area** = Area of the island where the property is located

**Name** = Name of property

**Type** = Property Type

Definitions are as follows:

<i>Apartment / Hotel</i>	Inexpensive units (usually in a low-rise building) equipped with kitchens and geared for long-term rentals. Front desk operations and maid service are usually limited and sometimes non-existent.
<i>Bed &amp; Breakfast (B&amp;B)</i>	A lodging facility with a limited number of guest units, which include breakfast in the daily rental rate. Typical bed and breakfast facilities are either small, quaint inns, or family homes.
<i>Condominium Hotel</i>	A multi-unit property legally classified as a condominium with each unit individually deeded. Generally, units are collectively placed into transient hotel rental operations, offering most of the services of a hotel, such as daily maid service and front desk operations. Condominium units are usually larger than hotel units and include studios and one- to three-bedroom units, with kitchen and laundry facilities, geared for transient use of 30 days or less.
<i>Hotel</i>	A multi-unit lodging facility which provides room accommodations on a daily basis and generally, but not always, restaurant operations and other “away from home” services such as daily maid service and front desk operations. Includes condominiums if a single owner owns all units and the property is operated as defined here.
<i>Hostels</i>	An inexpensive, limited service facility, often with dormitory-style accommodations, appealing primarily to younger travelers.
<i>Individual Vacation Unit (IVU)</i>	An individual condominium unit (not in a hotel rental operation), house, cabin, villa, or cottage with very limited service, often with only basic cleaning supplies provided.
<i>Timeshare</i>	<p>A timeshare is a kind of property ownership that allows guests to acquire a percentage of interest in a hotel unit, condominium/hotel, bed and breakfast, individual vacation home etc. for a specific period of time on a recurring basis. This share could be one week per year (i.e. 1/52 share) or more; some resorts offering one week every other year (1/104 share) or four weeks per year (1/13 share).</p> <p>The survey questionnaire asks for information on the number of units <u>registered</u> as timeshare and units <u>operated</u> as timeshare. The number of units registered includes those that are available for sale as well as those currently in use by visitors. The number of units operated represents the units that have been sold and are used.</p>
<i>Other</i>	Includes residential condominium units, timeshare units, motels, lodges, inns, or any other form of property not included in the above definitions.
