PREFACE

This report was prepared by the Research and Economic Analysis Division of the State of Hawaii Department of Business, Economic Development & Tourism (DBEDT), under the direction of the division administrator, Dr. Pearl Imada Iboshi, and with assistance from OmniTrak Group Inc.

Hawaii Visitors and Convention Bureau (HVCB) first published the Visitor Plant Inventory in 1964 and every year thereafter, except 1995 and 1998. HVCB did not conduct a survey in 1995 and did not publish hard copies of the report in 1998.

Act 156, Session Laws of Hawaii 1998, transferred the tourism research program from HVCB to DBEDT. DBEDT has been responsible for collecting and disseminating data on Hawaii's visitor industry since July 1, 1998.

As part of the tourism research program, in 2005, DBEDT conducted its seventh survey on statewide visitor rooms. This report provides the results of the visitor accommodation survey. Specifically, data on the number of visitor rooms, island distribution, type of property and class of rooms are presented. For the purpose of consistency, this report continues to use HVCB's definitions and format of reporting.

This report is also posted on the DBEDT website: <http://www.hawaii.gov/dbedt>

OVERVIEW

OVERVIEW

Total statewide visitor plant inventory in 2005 increased 0.4 percent from the previous year to 72,889 visitor units (Table 1). Hawaii county reported the highest growth rate (+13.1%), followed by Maui county with 4.4% Inventory in Kauai and Oahu counties decreased by -0.3% and -5.1%, respectively.

Just under half, 46.9 percent of the statewide visitor units in 2005 were located on Oahu. This is a slight decrease from 2004 where just over 49 percent of visitor units were located on Oahu. Maui County continues to have the second largest share of visitor units, followed by Hawaii and Kauai counties. Hotels continued to comprise the majority (63.0%) of visitor units statewide. Condo/hotel properties accounted for the second largest share of visitor units at 20.7 percent. Timeshare units accounted for 9.6 percent of the total of visitor units followed by individual vacation unit properties (3.3%). Bed & Breakfasts and hostels each comprised less than 1 percent of total visitor units (Table 2, Figure 2).

Statewide, there were a total of 7,003 registered timeshare units as of May 2005. This represents an increase of 16.2 percent from the previous year. All counties reported an increase in the number of operating timeshare units. Just over 30.0 percent or 2,115 timeshare units in 2005 were registered on Kauai, 1,852 units were on Maui, 1,592 were on Hawaii, 1,429 were on Oahu and 15 units were on Molokai.

The majority of timeshare units (59.1%) in operation were cross-listed as timeshare properties, 24.6 percent or 1,726 units were in the condominium hotel category, 284 units or 4.1 percent were listed in the "Other" category. Timeshare units were pulled from the primary property types and listed separately. However, timeshare establishments were included in the count of their primary property types and not counted separately since many properties have both hotel and timeshare units. In a cross-validation process, a few properties that were once classified as offering a single unit type were found to offer multiple unit types. These properties were then re-classified in the Visitor Plant Inventory database.

A section requesting information on property changes between April 2004 and May 2005 was added to the 2005 Visitor Plant Inventory Survey form. This new section requested detail on increased or decreased changes in inventory by the specific property and detail on property inventory that was converted to timeshare or condominium units. Of the 1,266 properties that responded to the survey in 2005, none reported any visitor

unit inventory converted to timeshare in 2005, but four properties reported conversion of visitor units to condominium class units in 2005. The number of visitor units converted to condominium class among these four properties amounted to 511 (Table 11).

Visitor units categorized as “Standard” (\$101 to \$250 per night rack rate), comprised the largest percentage of the total units statewide in 2005. The second largest group of units were those classified as “Deluxe” (\$251 to \$500 per night), followed by those in the “Budget” (\$100 or less per night) and “Luxury” (over \$500 per night) categories (Table 4 and Figure 9).

By island, 82.4 percent of Oahu visitor units were classified as “Standard” or “Deluxe”. Similarly, the majority of the visitor units on Kauai, Hawaii and Maui were also in the “Standard” or “Deluxe” price range. In contrast, most of the visitor units on Lanai (95.1 percent) were in the higher-priced “Deluxe” and “Luxury” classes.

Of the 1,266 properties that responded to the survey in 2005, 1,212 properties reported their units by class (Figure 10 and Table 5). Over half of the condominium hotel properties (8,717 units) categorized their units as “Standard.” Among hotels, 43.2 percent of the units were classified as “Deluxe” and 34.7 percent were “Standard” units. Hotels had the largest percentage share of “Luxury” units compared to other types of visitor accommodations.

METHODS AND PROCEDURES

METHODS AND PROCEDURES

The 2005 Visitor Plant Inventory presents the results of DBEDT's enumeration of visitor accommodations in Hawaii. Existing visitor accommodations as of May 1, 2005 as well as planned developments and additions to existing developments are catalogued.

Visitor Plant Inventory Survey: Information about transient accommodations was gathered mainly from a survey of existing visitor accommodation properties and management companies. Survey forms were sent to general managers, property managers and other individuals who could provide information about the property. The survey provided information about available units, planned additions and other information presented in this report. If no response was received after three mailings, a follow-up telephone call was made to the property to remind them to complete and return the form. Subsequently if after the follow-up telephone call still no response was received, an Internet search was conducted. If no response was received or no data is found on the Internet, where information was available from prior years (2001, 2002, 2003 or 2004), that information was included and so noted. If no survey form was returned and no information was available from previous years or other sources, the property was listed as a non-respondent.

As part of a general web search, an additional 312 properties identified as part of a detailed web search of "Vacation Units In Hawaii" and "Hawaii B&B" was also included in the mail-out and telephone follow-up methodology.

Association Survey: Continued in 2005, this survey's purpose was to gather contact information of associations whose members were transient visitor accommodations in the State of Hawaii. Letters were sent to these associations to request member accommodation contact information, from which the mailing list was updated and new accommodations were contacted via mailing as described above.

Timeshare Properties: Information on timeshare properties were gathered with the survey questionnaire, which asked for information on the number of units registered as timeshare and units operated as timeshare. The number of units registered includes those that are available for sale as well as those currently in use by visitors. The number of units operated represents the units that have been sold and are used. The timeshare units listed in Tables 2 and 3 and their related charts are the total number of registered units. The number of

timeshare establishments is not provided as the properties are included in the count by their primary property type. Timeshare was listed as a specific option in the survey.

Planned Property Changes: A section requesting information on property changes between April 2004 and May 2005 was added to the 2005 Visitor Plant Inventory Survey form. This new section provided detail on increased or decreased changes in inventory by the specific property and detail on property inventory that was converted to timeshare or condo units.

Cross-Validation: A cross-validation process was conducted with Hospitality Advisors LLC. Differences between information gathered by Hospitality Advisors LLC and the 2005 Visitor Plant Inventory Survey were validated by telephone with the properties in question or with the property's website, if available. Through this cross-validation process, properties previously not part of the Visitor Plant inventory, were added to the upon confirmation of property information. Changes to inventory of properties currently in the Visitor Plant Inventory were also noted and the database revised accordingly.

Planned New Developments: Information about planned new developments was gathered with assistance from the four county Planning Offices. The information is reprinted here and includes projects and developments that have achieved some level of jurisdictional approval. That is, these developments are a step beyond the preliminary stages of development and have some "official" standing as planned developments.

FIGURE 1: EXISTING INVENTORY BY ISLAND

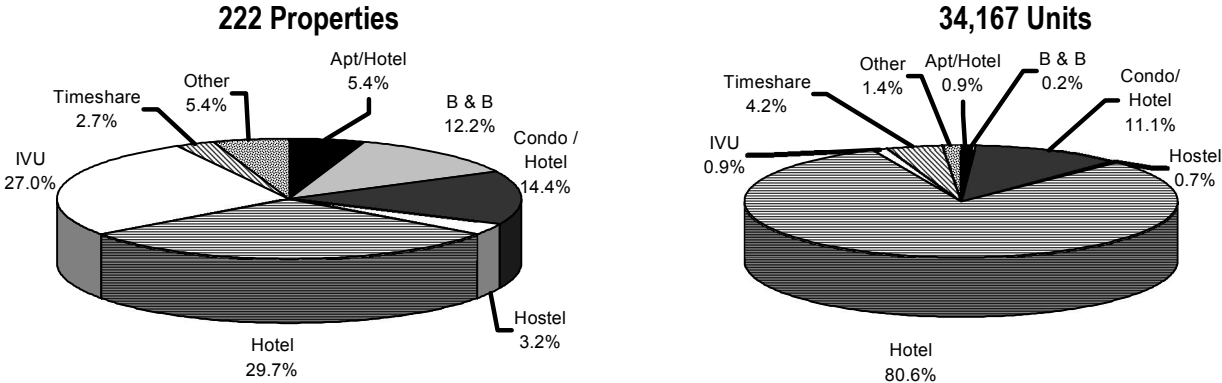

Statewide, there were 1,266 properties with 72,889 units for visitor use. Oahu's 222 properties comprised only 17.5 percent of the State's total properties but nearly half of the State's total visitor units (34,167). The island of Maui with 281 properties accounted for 18,469 units or 25.3 percent of the State's total visitor units. The island of Hawaii had 274 properties yielding 15.6 percent of the State's total or 11,351 units. On Kauai there were 8,081 available visitor units among 447 properties. Molokai had 35 properties which yielded 452 units.

FIGURE 2: SUMMARY BY TYPE - STATE

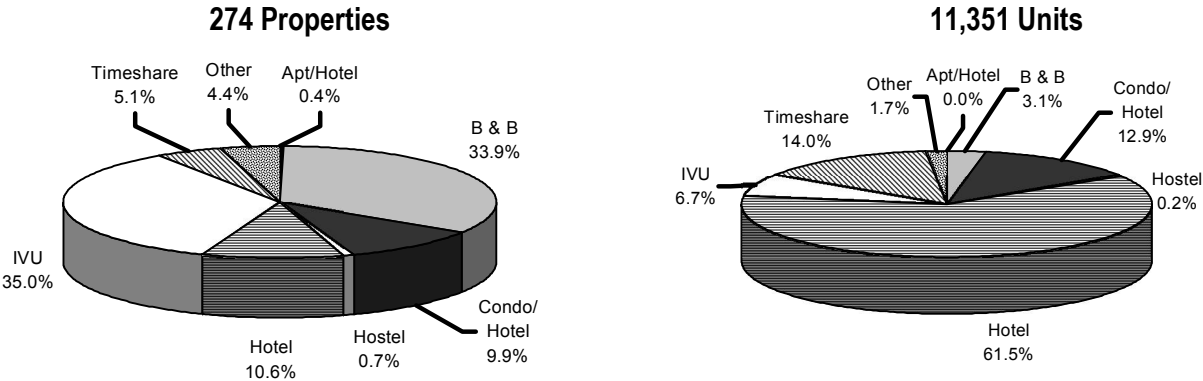

Hotels comprised only 11.5 percent of the State's properties, but accounted for the majority (45,888 units) of the State's total visitor units. Condominium hotels represented the second largest percentage both in terms of total properties and number of units (15,107 units). Timeshare units followed with 9.6 percent (7,003) of the State's total visitor units. Individual vacation units made up the largest share of the State's total properties but only 3.3 percent of its total units (2,438 units). Bed & Breakfasts comprised 14.8 percent of the State's total properties but only 0.9 percent (625 units) of its total units.

FIGURE 3: SUMMARY BY TYPE – OAHU

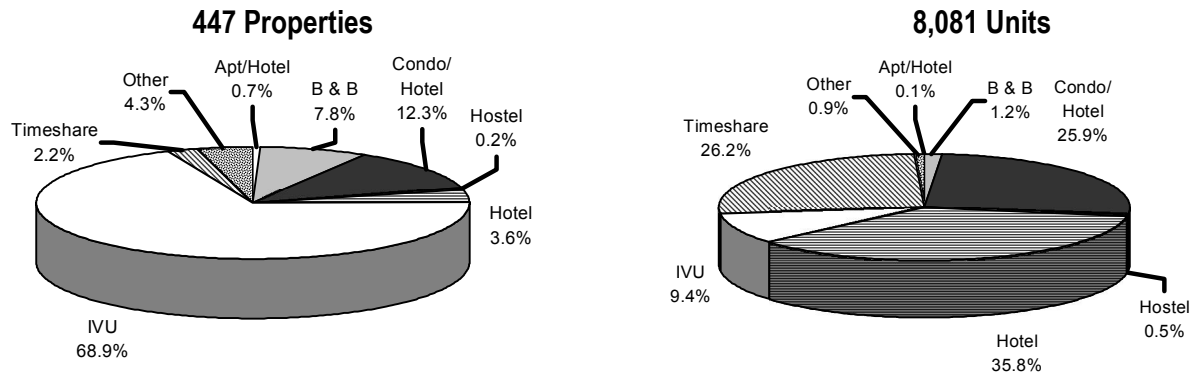

Oahu’s 66 hotels accounted for the largest number of properties and the majority (27,542) of the island’s total visitor units. The island’s 32 condominium hotels yielded 3,782 units. Individual vacation units, 60 properties in all, accounted for only 0.9 percent (316 units) of the total inventory. Timeshare units represent 4.2 percent (1,429) of the island’s total visitor unit inventory. Hostels represented the smallest group of properties (7), but contained more units (249) than Bed & Breakfasts properties with 53 units.

FIGURE 4: SUMMARY BY TYPE – HAWAII

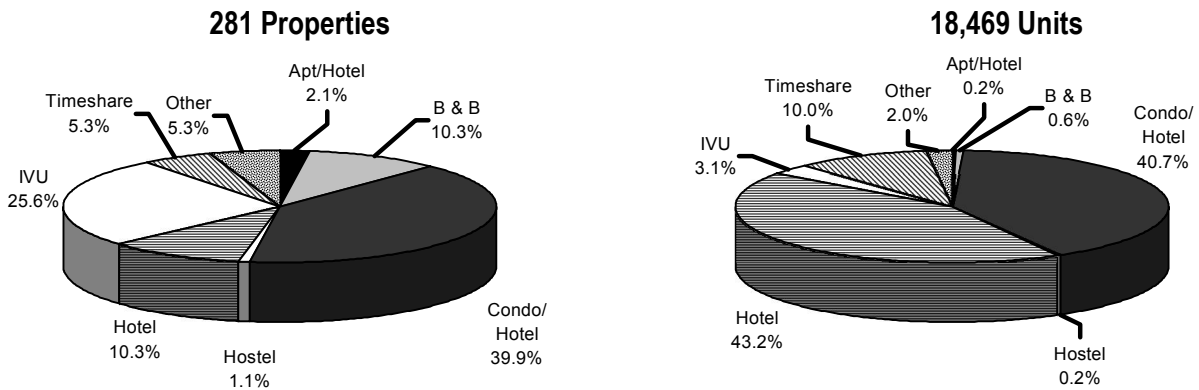

Hotels comprised only 10.6 percent or 29 properties on Hawaii but accounted for the majority (6,977 units) of the island’s visitor unit inventory. Timeshare units represent 14.0 percent (1,592) of the island’s total visitor unit inventory. A total of 27 condominium hotels on Hawaii yielded 1,462 units. The island’s 96 individual vacation units represented 35.0 percent of the total properties, and ranked fourth in terms of units (756 units). There are 93 Bed & Breakfasts with 353 units. The second smallest category was hostels with 2 properties and 21 units.

FIGURE 5: SUMMARY BY TYPE – KAUAI

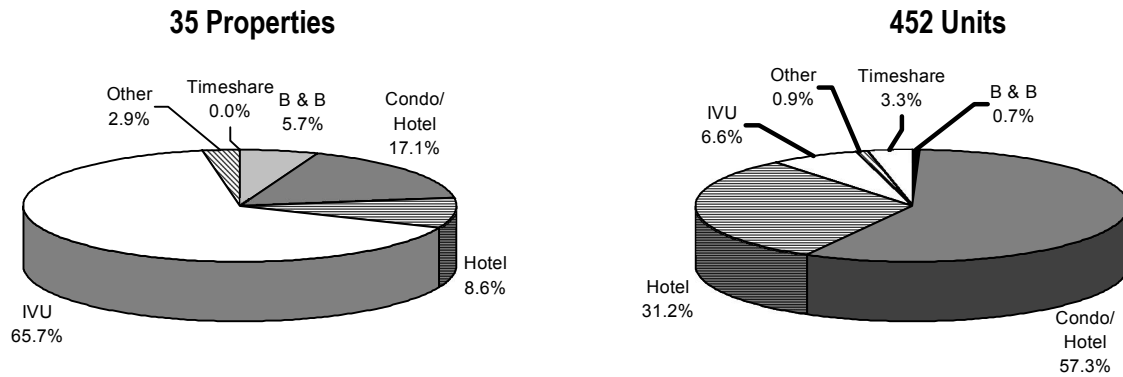

Individual vacation units with 308 properties accounted for the largest share of Kauai’s total number of properties and ranked fourth in terms of inventory (763 units). Hotels with 16 properties comprised 2,892 units. Timeshare units represent 26.2 percent (2,115) of the island’s total visitor unit inventory. Condominium hotels, with 55 properties comprised 2,095 visitor units on Kauai. There were 35 bed and breakfast properties with 97 units.

FIGURE 6: SUMMARY BY TYPE – MAUI

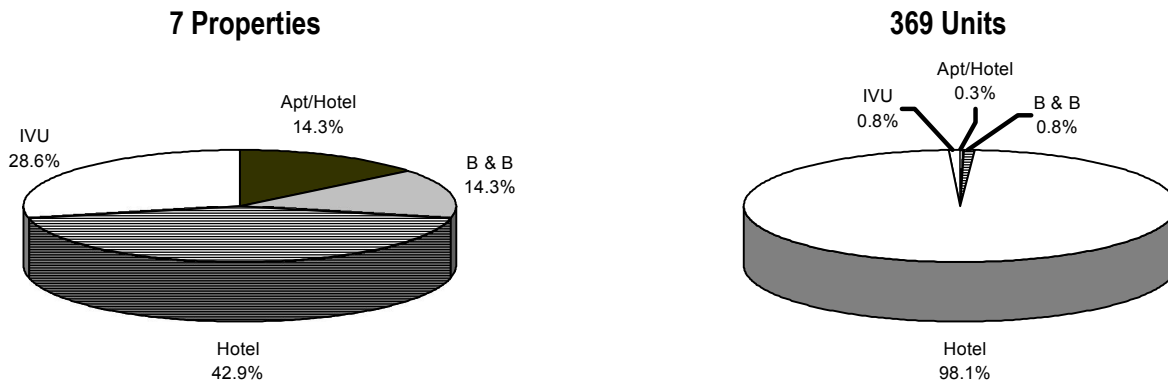

Condominium hotels (112 properties) comprised the largest number of properties on Maui and the second largest in terms of units (7,509 units). Timeshare units represent 10.0 percent (1,852) of the island’s total visitor unit inventory. The island’s 29 hotels yielded the most number of units at 7,974 or 43.2 percent of the total. Maui’s 72 individual vacation unit properties contained 570 units or 3.1 percent of the island’s total units. There were 29 bed and breakfast properties which made up less than 1 percent of the total units (116 units).

FIGURE 7: SUMMARY BY TYPE – MOLOKAI

Molokai's 6 condominium hotels accounted for the majority (57.3% or 259 units) of the island's total units. Hotels accounted for the island's second largest number of units (141 units) or 31.2 percent. There were 23 individual vacation units but these smaller properties contributed only 30 units to the island's inventory. Timeshare units represented 3.3 percent (15 units) of the islands total visitor unit inventory.

FIGURE 8: SUMMARY BY TYPE – LANAI

Three out of the 7 properties on Lanai were hotels which comprised nearly all (362 units) of the total units on the island. There were two individual vacation unit properties and 1 bed & breakfast property, consisting of 3 units each or 1.6 percent of the island's total units. Lanai is the only island where no operating timeshare units were reported.

CLASS OF UNITS

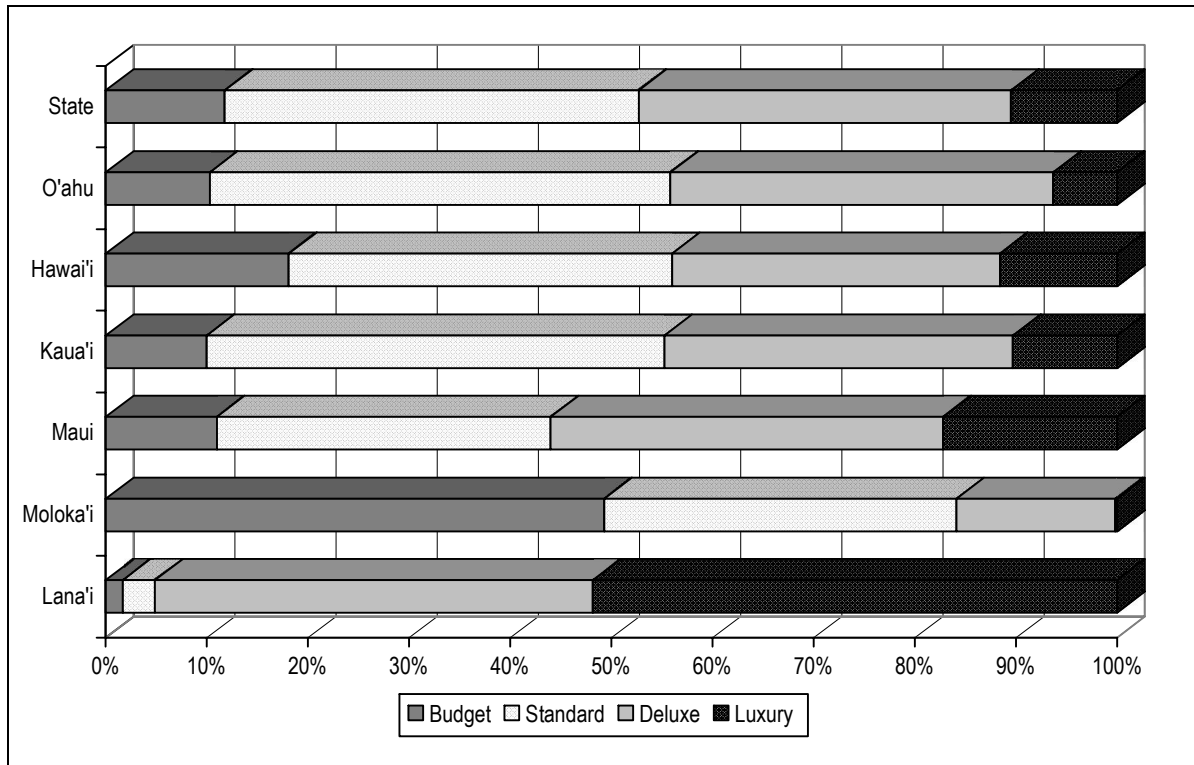

CLASS OF UNITS

The Visitor Plant Inventory survey also included questions about the class of units at each property. The subsequent tables show the percent of each class of units available by island. Units were classified as follows:

<u>CLASS</u>	<u>PRICE RANGE (RACK RATE)</u>
Budget	Up to \$100 per night
Standard	\$101 to \$250 per night
Deluxe	\$251 to \$500 per night
Luxury	Over \$500 per night

The charts and tables to follow were based on 1,212 properties representing 69,419 units for which information on the class of units were reported.

FIGURE 9: CLASS OF UNITS BY ISLAND

2005 VISITOR PLANT INVENTORY

LIST OF PROPERTIES

EXPLANATION OF CATEGORIES

Island = Island on which the property is located

Area = Area of the island where the property is located

Name = Name of property

Type = Property Type

Definitions are as follows:

<i>Apartment / Hotel</i>	Inexpensive units (usually in a low-rise building) equipped with kitchens and geared for long-term rentals. Front desk operations and maid service are usually limited and sometimes non-existent.
<i>Bed & Breakfast (B&B)</i>	A lodging facility with a limited number of guest units, which include breakfast in the daily rental rate. Typical bed and breakfast facilities are either small, quaint inns, or family homes.
<i>Condominium Hotel</i>	A multi-unit property legally classified as a condominium with each unit individually deeded. Generally, units are collectively placed into transient hotel rental operations, offering most of the services of a hotel, such as daily maid service and front desk operations. Condominium units are usually larger than hotel units and include studios and one- to three-bedroom units, with kitchen and laundry facilities, geared for transient use of 30 days or less.
<i>Hotel</i>	A multi-unit lodging facility which provides room accommodations on a daily basis and generally, but not always, restaurant operations and other "away from home" services such as daily maid service and front desk operations. Includes condominiums if a single owner owns all units and the property is operated as defined here.
<i>Hostel</i>	An inexpensive, limited service facility, often with dormitory-style accommodations, appealing primarily to younger travelers.
<i>Individual Vacation Unit (IVU)</i>	An individual condominium unit (not in a hotel rental operation), house, cabin, villa, or cottage with very limited service, often with only basic cleaning supplies provided.
<i>Timeshare</i>	<p>A timeshare is a kind of property ownership that allows guests to acquire a percentage of interest in a hotel unit, condominium/hotel, bed and breakfast, individual vacation home etc. for a specific period of time on a recurring basis. This share could be one week per year (i.e. 1/52 share) or more; some resorts offering one week every other year (1/104 share) or four weeks per year (1/13 share).</p> <p>The survey questionnaire asks for information on the number of units <u>registered</u> as timeshare and units <u>operated</u> as timeshare. The number of units registered includes those that are available for sale as well as those currently in use by visitors. The number of units operated represents the units that have been sold and are used.</p>
<i>Other</i>	Includes residential condominium units, timeshare units, motels, lodges, inns, or any other form of property not included in the above definitions.
