## PREFACE

This report was prepared by the Research and Economic Analysis Division of the State of Hawai'i Department of Business, Economic Development & Tourism (DBEDT), under the direction of the division administrator, Dr. Pearl Imada Iboshi, and with assistance from PKF Hawaii, LLP.

Hawai'i Visitors and Convention Bureau (HVCB) first published the Visitor Plant Inventory in 1964 and every year thereafter, except 1995 and 1998. HVCB did not conduct a survey in 1995 and did not publish hard copies of the report in 1998.

Act 156, Session Laws of Hawai'i 1998, transferred the tourism research program from HVCB to DBEDT. DBEDT has been responsible for collecting and disseminating data on Hawai'i's visitor industry since July 1, 1998.

As part of the tourism research program, in 2001, DBEDT conducted its third survey on Statewide visitor rooms. This report provides the results of the visitor accommodation survey. Specifically, data on the number of visitor rooms, island distribution, type of property and class of rooms are presented. For the purpose of consistency, this report continues to use HVCB's definitions and format of reporting.

This report is also posted on the DBEDT website: <http://www.hawaii.gov/dbedt/vpi>

## **OVERVIEW**

## OVERVIEW

Total room inventory statewide remained relatively unchanged in 2001, with a slight increase of 1.0 percent from 71,506 units in 2000 to 72,204 units in 2001 (Table 1). Room counts by island remained relatively steady: Oʻahu units increased by 1.4 percent from 36,303 in 2000 to 36,824; Hawaiʻi County units increased by 1.7 percent from 9,774 to 9,944. Kauaʻi County had an increase of 0.6 percent and Maui County had a decrease of 0.2 percent. Kauaʻi County units increased from 7,159 to 7,202, while Maui County units fell from 18,270 to 18,234.

Slightly more than half (51.0%) of the State's visitor units are on Oʻahu (Table 2 and Figure 1). The island of Maui accounts for 24.3 percent of the total State room inventory while Hawaiʻi represents 13.8 percent. Kauaʻi contains 10.0 percent while both Molokaʻi and Lanaʻi each share less than 1.0 percent of the total State visitor units.

By property type (Figure 2), hotels comprise only 17.6 percent of the State's properties, but they account for the majority (69.4%) of the State's total units<sup>(A)</sup>. Condominium hotels comprise the second largest percentage both in terms of total properties (22.1%) and number of units (22.4%). Individual vacation units represent 33.5 percent of the State's total properties but only 2.0 percent of the total units. Bed & breakfasts comprise 16.3 percent of the State's total properties but only 0.8 percent of the total units.

The State had a total of 4,299 timeshare units in operation (Table 6) as of May 2001. Kauaʻi has 37.2 percent (1,599 units) of the timeshare units, 25.8 percent (1,108 units) are on Maui, 20.5 percent (883 units) on Hawaiʻi, 16.3 percent (702 units) are on Oʻahu, and 0.2 percent are on Molokaʻi. Most of the timeshare units (71.8 percent) are cross-listed as condominium hotels, 2.9 percent are listed in the category of individual vacation units, 1.2 percent in the hotel category, less than 1.0 percent are listed as apartment hotels, and 23.2 percent fall in other categories. In this report, timeshare units are cross-listed and included in the room counts of their primary property types.

By class Statewide (Figure 9 and Table 4), the largest percentage of rooms (43.9%) are categorized as "Standard" (\$101 to \$250 per night rack rate), followed by 29.4 percent "Deluxe" (\$251 to \$500 per night), 20.7 percent "Budget" (\$100 or less per night) and 5.9 percent "Luxury" (over \$500 per night). By island, 72.5

percent of Oāahu visitor units fall into the classes of “Standard” and “Deluxe”. Most of Kauaī’s room inventory (77.0 percent) falls in the “Standard” and “Deluxe” classes, while they account for 68.7 percent on Hawaiī and 78.5 percent on Molokaī. On Maui, 76.9 percent of the rooms also fall in the above-mentioned two categories, while the majority of rooms on Lanaī (95.4 percent) lie in the higher-priced “Deluxe” and “Luxury” classes.

Of the 914 properties responding to the survey, 804 properties reported their rooms by class (Figure 10 and Table 5). The majority of condominiums (63.1% or 9,849 units) categorized their units as “Standard”. Among hotels, 40.1 percent (20,107 units) categorized their units as “Standard” and 33.8 percent (16,937 units) were categorized as “Deluxe”. Among all types of properties, hotels comprised the largest percentage (7.8% or 3,891 rooms) of those in the “Luxury” category.

## **METHODS AND PROCEDURES**

## METHODS AND PROCEDURES

The 2001 Visitor Plant Inventory presents the results of DBEDT's enumeration of visitor accommodations in Hawai'i. Existing visitor accommodations as of May 1, 2001 as well as planned developments and additions to existing developments are catalogued.

Visitor Plant Inventory Survey: Information about transient accommodations is gathered mainly from a survey of existing visitor accommodation properties and management companies. Survey forms were sent to general managers, property managers and other individuals who could provide information about the property. The survey provided information about available units, planned additions and other information presented in this report. If no response was received after three mailings, a follow-up telephone call was made to the property to remind them to complete and return the form. If after the follow-up telephone call still no response was received, where information was available from prior years (1990, 1991, 1992, 1993, 1994, 1996, 1997, 1998, 1999, or 2000), that information was included and so noted. If no survey form was returned and no information was available from previous years or other sources, the property was listed as a non-respondent.

Timeshare Properties: Information on timeshare properties was gathered with the survey questionnaire, which asked for information on the number of units registered as timeshare and units operated as timeshare. The number of units registered are those that have been designated for sale as timeshare and the number of units operated represents the units that have sold or are available for sale as timeshare.

Planned New Developments: Information about planned new developments was gathered from the planning offices of the four counties. The information is reprinted here and includes projects and developments that have achieved some level of jurisdictional approval. That is, these developments are a step beyond the preliminary stages of development and have some "official" standing as planned developments.

LIST OF PROPERTIES**

## EXPLANATION OF CATEGORIES

**Island** = Island on which the property is located

**Area** = Area of the island where the property is located

**Name** = Name of property

**Type** = Property Type.

Definitions are as follows:

<i>Apartment / Hotel</i>	Inexpensive rooms (usually in a low-rise building) equipped with kitchens and geared for long-term rentals. Front desk operations and maid service are usually limited and sometimes non-existent.
<i>Bed &amp; Breakfast (B&amp;B)</i>	A lodging facility with a limited number of guest rooms, which include breakfast in the daily rental rate. Typical bed and breakfast facilities are either small, quaint inns or family homes.
<i>Condominium Hotel</i>	A multi-unit property legally classified as a condominium with each unit individually deeded. Generally, units are collectively placed into transient hotel rental operations, offering most of the services of a hotel, such as daily maid service and front desk operations. Condominium units are usually larger than hotel rooms and include studios and one- to three-bedroom units, with kitchen and laundry facilities, geared for transient use of 30 days or less.
<i>Hotel</i>	A multi-unit lodging facility which provides room accommodations on a daily basis and generally, but not always, restaurant operations and other "away from home" services such as daily maid service and front desk operations. Includes condominiums if a single owner owns all units and the property is operated as defined here.
<i>Hostel</i>	An inexpensive, limited service facility, often with dormitory-style accommodations, appealing primarily to younger travelers.
<i>Individual Vacation Unit (IVU)</i>	An individual condominium unit (not in a hotel rental operation), house, cabin, villa or cottage with very limited service, often with only basic cleaning supplies provided.
<i>Other</i>	Any other form of property not included in the above definitions.
