PREFACE

The 2009 Visitor Plant Inventory report was produced by Hospitality Advisors, LLC for the Hawai'i Tourism Authority (HTA).

As part of the Tourism Research program, HTA conducted a survey on statewide visitor accommodation in 2009. This report provides the results of this survey presenting statistics on the number of visitor units, island distribution, type of property and class of rooms. As in previous reports, island and district names were written in proper Hawaiian language orthography. However, individual property names were not written in the same manner unless the words were easily identifiable (ie. island names).

The Hawai'i Visitors and Convention Bureau (HVCB) first published the visitor Plant Inventory in 1964 and every year thereafter, except 1995 and 1998. HVCB did not conduct a survey in 1995 and did not publish hard copies of the report in 1998. The Department of Business, Economic Development and Tourism (DBEDT) published the visitor plant inventory reports annually from 1999 through 2008.

The 2009 Visitor Plant Inventory report is posted on the HTA website: www.hawaiitourismauthority.org/reports

For further information, contact HTA at (808) 973-2255, www.hawaiitourismauthority.org.

OVERVIEW

State of Hawai'i

The total State of Hawai'i visitor plant inventory rose by 1.4 percent over 2008 to 75,188 visitor units. This gain was primarily driven by new purpose-built timeshare units across all counties and reintroduction of properties previously closed for renovation. While the visitor unit count on O'ahu was stable, all other counties reported an increase in visitor units over 2008 [Figure 1].

However, the total number of lodging establishments in the state decreased by 82 properties (-4.8 percent) from the prior year, despite the overall increase in statewide visitor units. Kaua'i reported the largest decline in lodging properties (-14.1 percent) [Figure 2]. Establishments removed from the 2009 supply largely consisted of individual vacation units ("IVU"s), reflecting Hawai'i's tough economic environment and growing price competitiveness from traditional lodging types.

Just under half (45.3 percent) of the statewide visitor units in 2009 were located on O'ahu. The island of Maui continued to have the second largest share of visitor units, followed by Hawai'i Island and Kaua'i counties [Figure 1].

Hotels continued to comprise the majority (57.0 percent) of visitor units statewide. Condominium hotel properties accounted for the second largest share of visitor units at 19.2 percent. Timeshare units represented 13.4 percent of the total visitor units followed by IVUs with 8.6 percent. Bed & Breakfasts, apartment hotels, and hostels combined totaled less than 2.0 percent of the total visitor units [Figure 3].

Figure 1

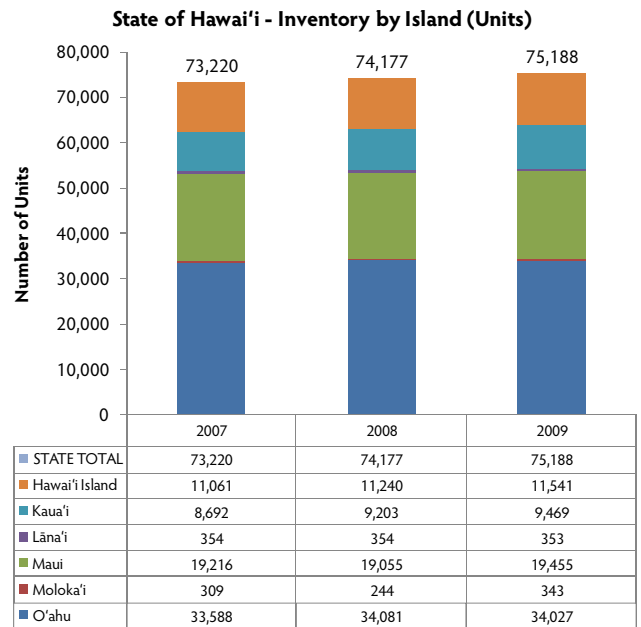

Figure 2

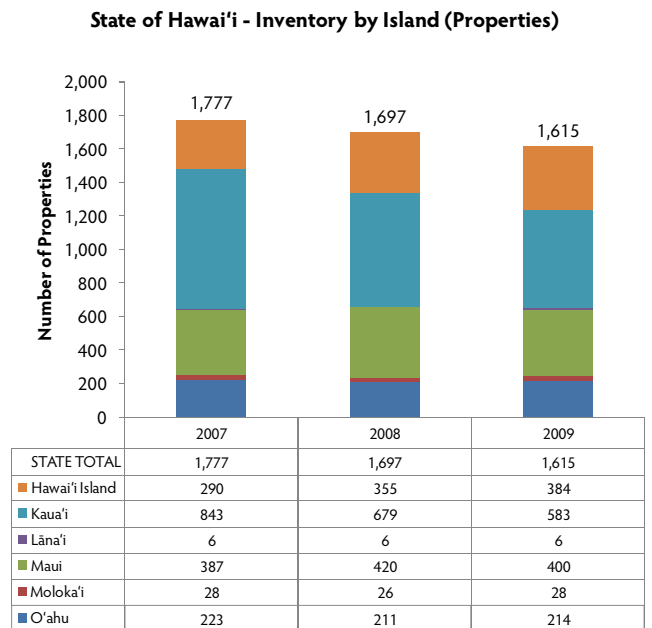

Figure 3

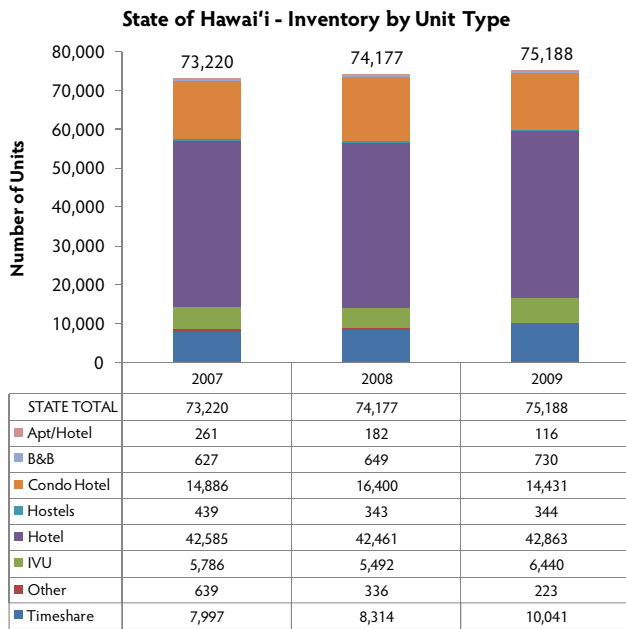

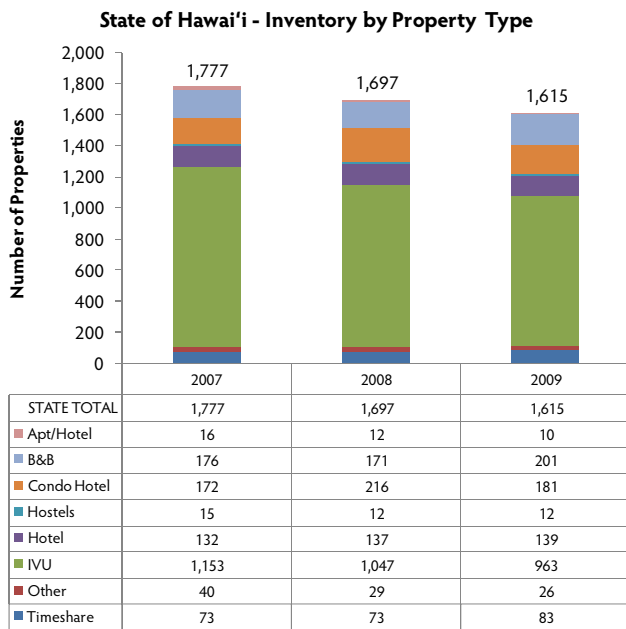

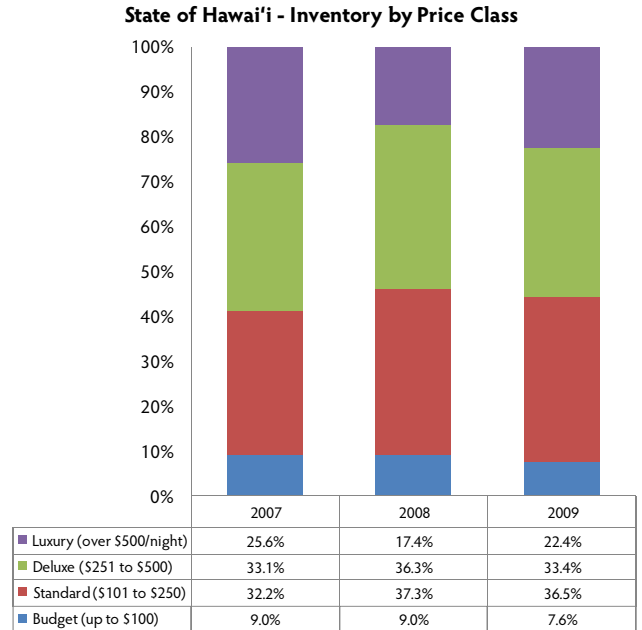

Figure 4

The State visitor supply continued to be concentrated in the Deluxe and Standard price classes for 2009. A greater percentage of units were classified as Luxury in 2009 compared to 2008, but still remained lower than 2007 levels [Figure 5].

Figure 5

Inventory by Island

O'ahu

The lodging inventory on the island of O'ahu increased between 2007 and 2008, driven by the reintroduction of units taken out of supply for redevelopment, such as The Royal Hawaiian and properties located at Outrigger's Waikiki Beach Walk, and the development of new, purpose-built timeshare units such as Marriott's Ko 'Olina Beach Club project and Hilton's Grand Waikikian. O'ahu's inventory was relatively unchanged in 2009 as traditional lodging units such as hotels and condo hotels have remained relatively stable on O'ahu [Figure 6]. The majority of O'ahu's lodging units were in the Standard and Deluxe price ranges [Figure 8].

Figure 6

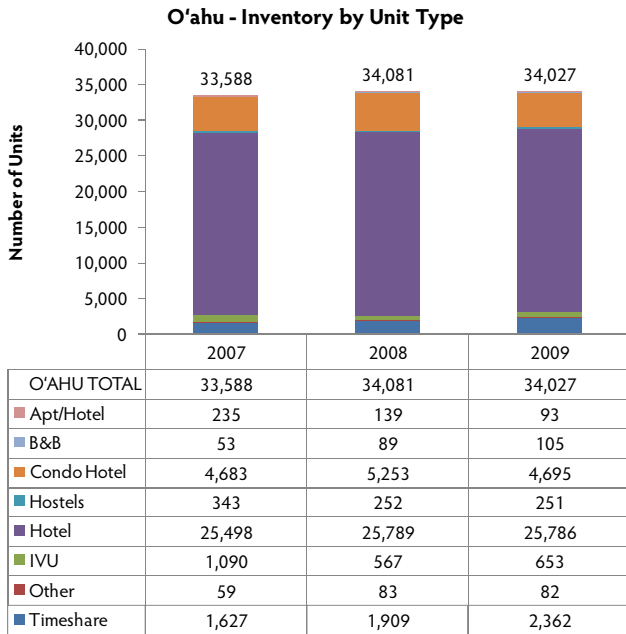

Figure 8

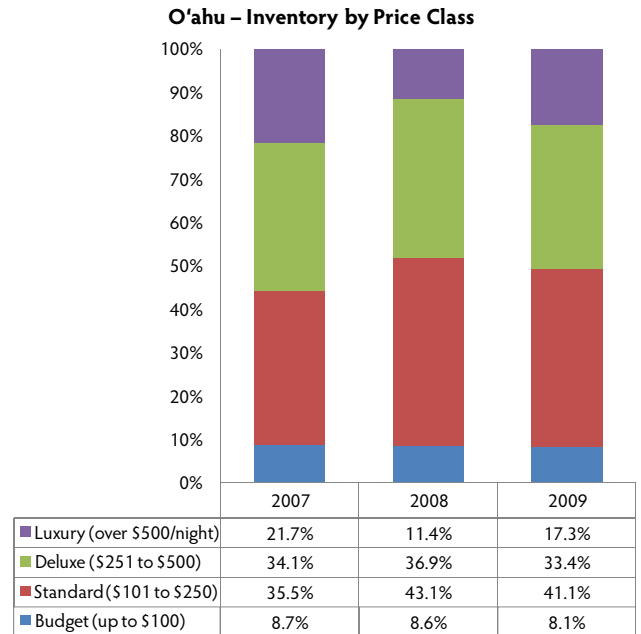

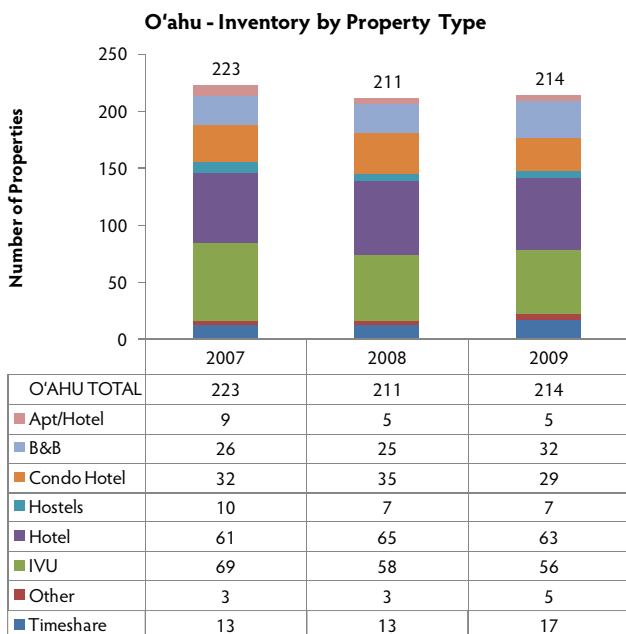

Figure 7

Hawai'i Island

Hotels continued to comprise the bulk of Hawai'i Island's visitor plant inventory (6,846 units) [Figure 9]. Hawai'i Island reported a significant growth in the number of B&B properties in 2009 (+15.7 percent). Timeshare units increased by 13.9 percent as Hilton's King's Land project in Waikoloa came online in late 2008 [Figure 10]. Hotels also contributed to Hawai'i Island's unit increase as the temporarily closed Mauna Kea Resort was reintroduced into the VPI after an extensive renovation. Over a third of Hawai'i Island's lodging units fell within the Deluxe price class [Figure 11].

Figure 9

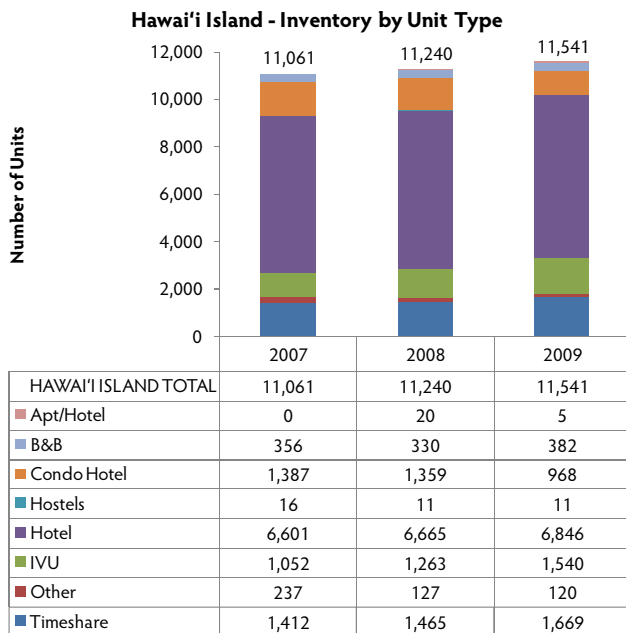

Figure 11

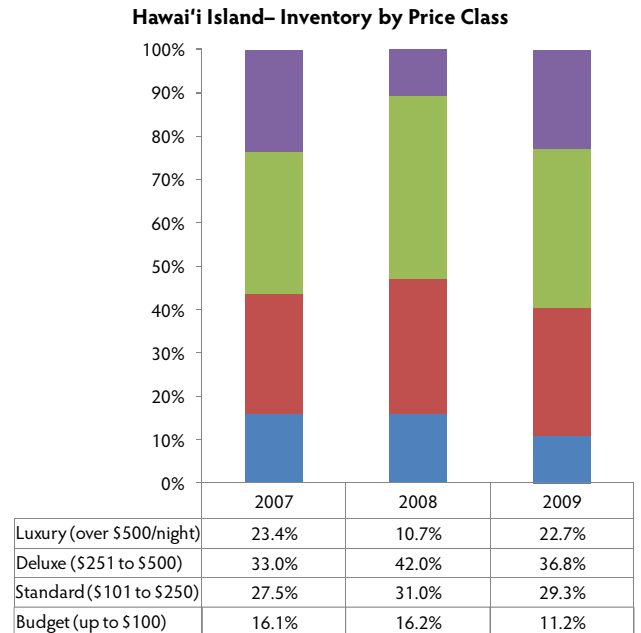

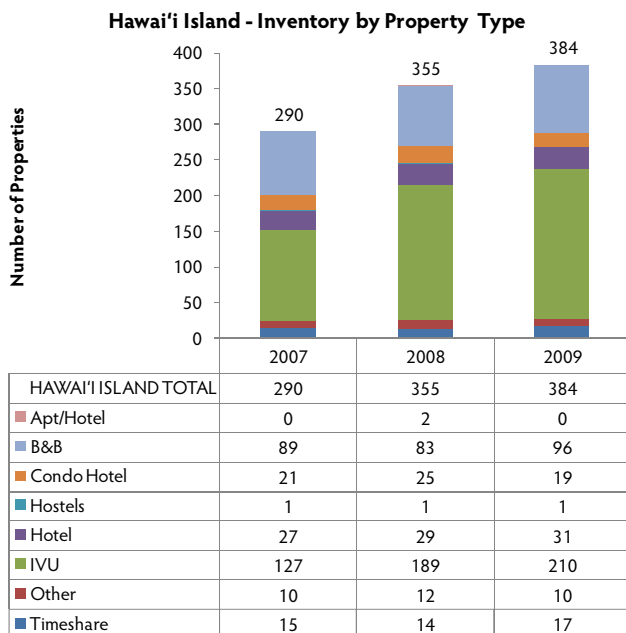

Figure 10

Kaua'i

B&B and timeshare units on Kaua'i rose by 16.4 percent and 17.7 percent, respectively, over 2008 [Figure 12]. Individual vacation units continued to account for the largest share of Kaua'i's total number of properties (458) [Figure 13], but the overall number of IVUs on Kaua'i has decreased since 2008 partly due to the economic downturn. On a unit basis the majority of Kaua'i's visitor supply consisted of traditional lodging units such as hotel and condo hotel. Notably, the 2009 VPI included the reintroduction of the former Poipu Beach Hotel as the 121-room Koa Kea Hotel & Resort.

Figure 12

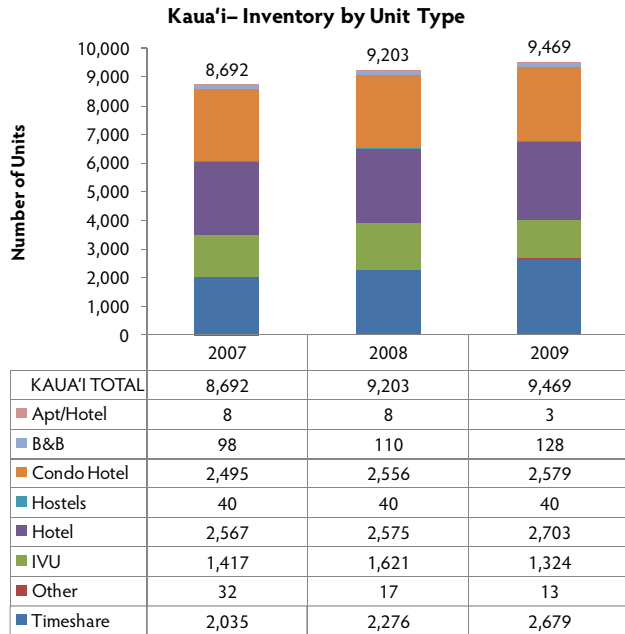

Figure 14

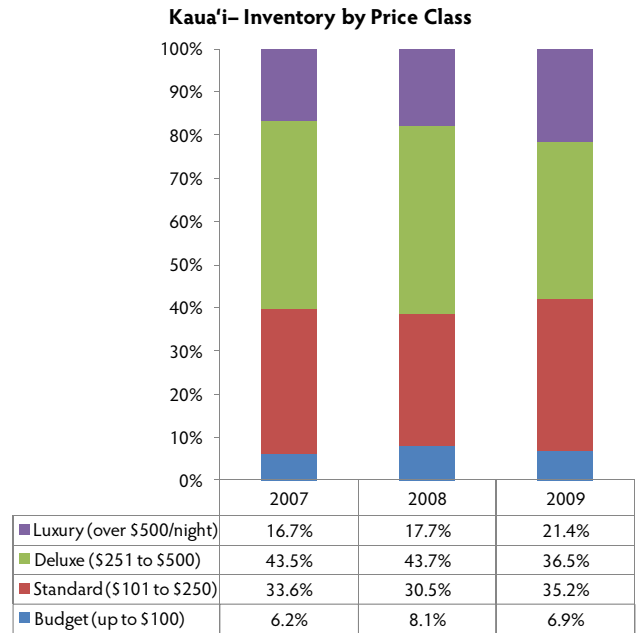

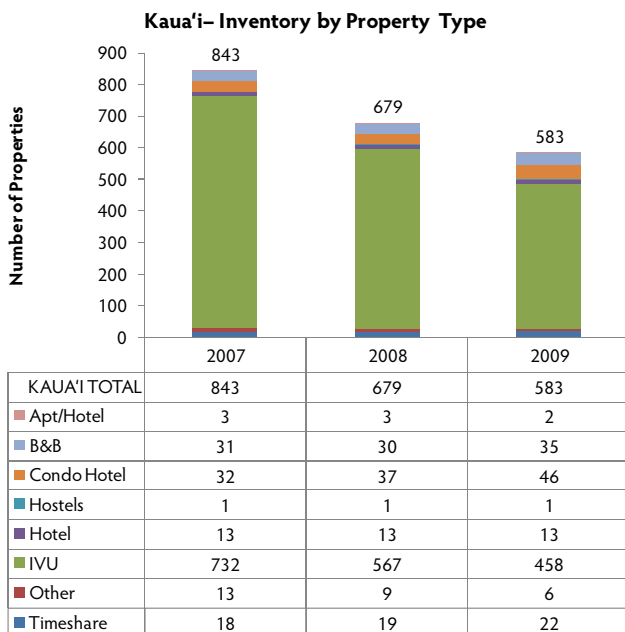

Figure 13

Maui

The overall number of lodging units on Maui grew by 2.1 percent over 2008. However, Maui's 2009 timeshare inventory was impacted by a change in reporting procedures [see Methods and Procedures] and did not reflect a true increase in timeshare units. There was a 43.5 percent swell in IVUs to 2,901 units due primarily to the discovery of additional units through internet search. The visitor supply on Maui continued to be primarily in the luxury and standard categories [Figure 17].

Figure 15

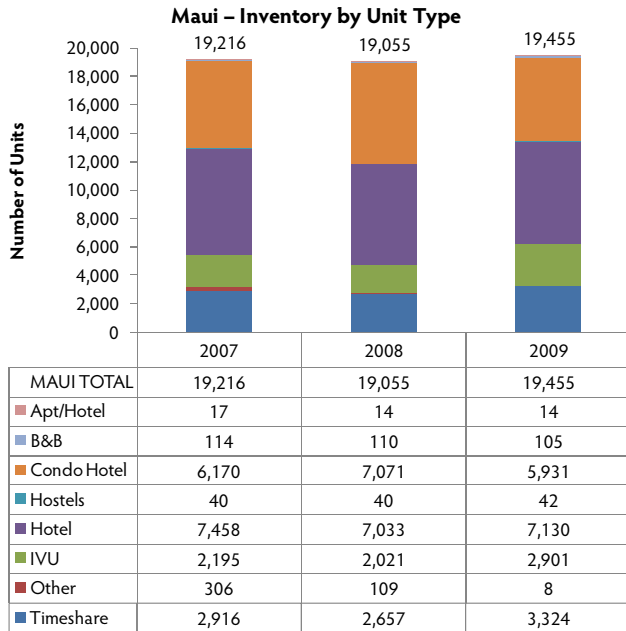

Figure 17

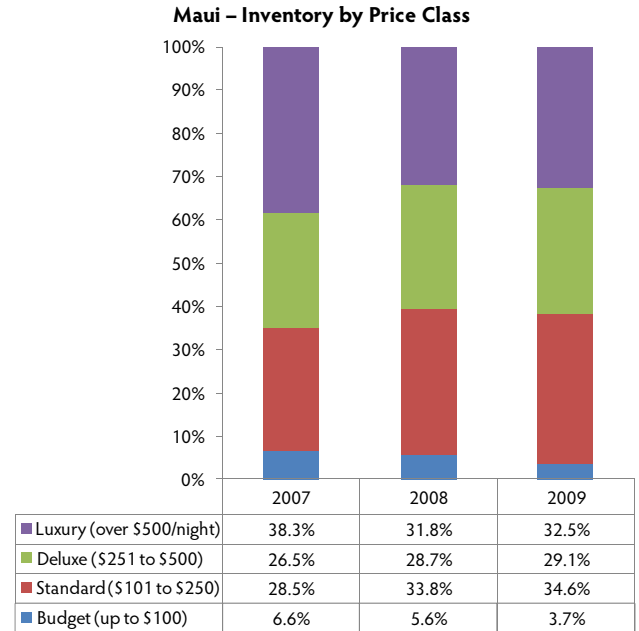

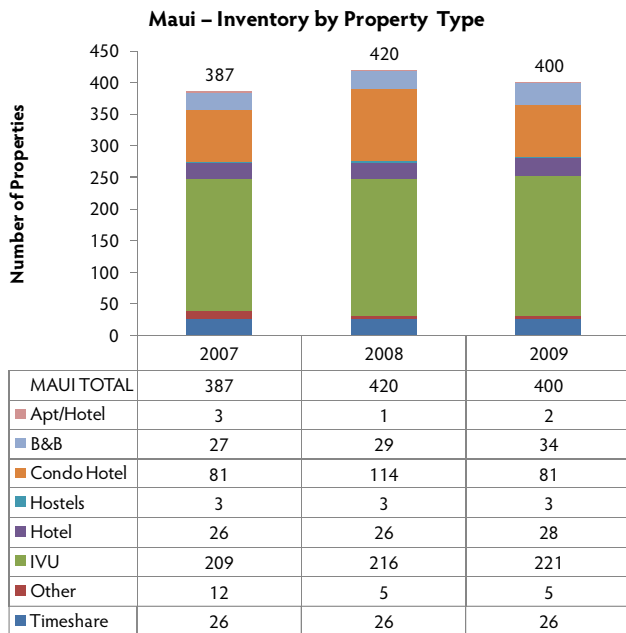

Figure 16

Moloka'i

The overall visitor unit count on Moloka'i went up by 40.6 percent over 2008 due to a significant increase in condo hotel units participating in the 2009 survey [Figure 18]. These units were likely in service in prior years. The majority of units on Moloka'i fell within the Standard price class (60.2 percent) [Figure 20].

Figure 18

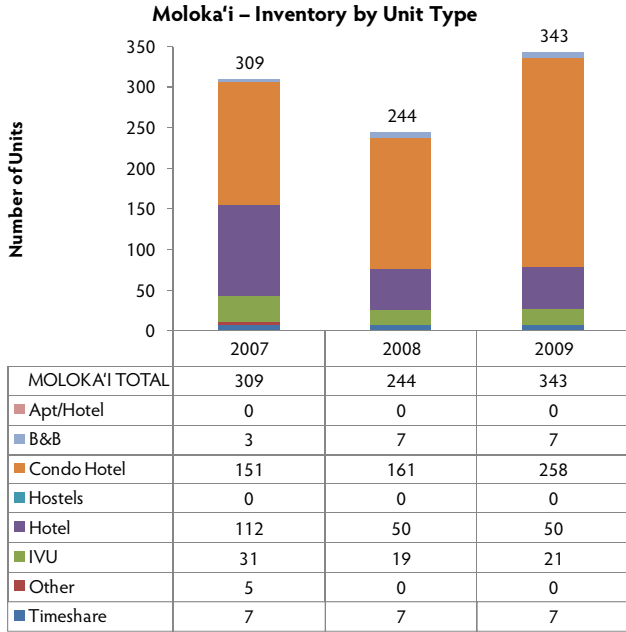

Figure 20

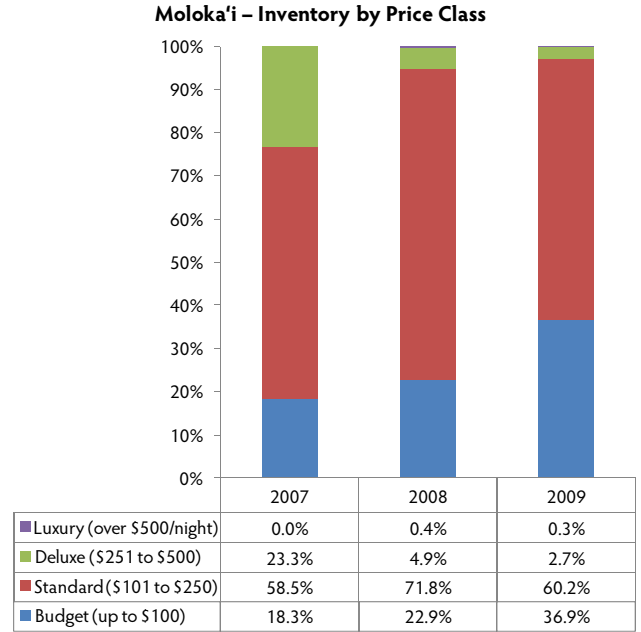

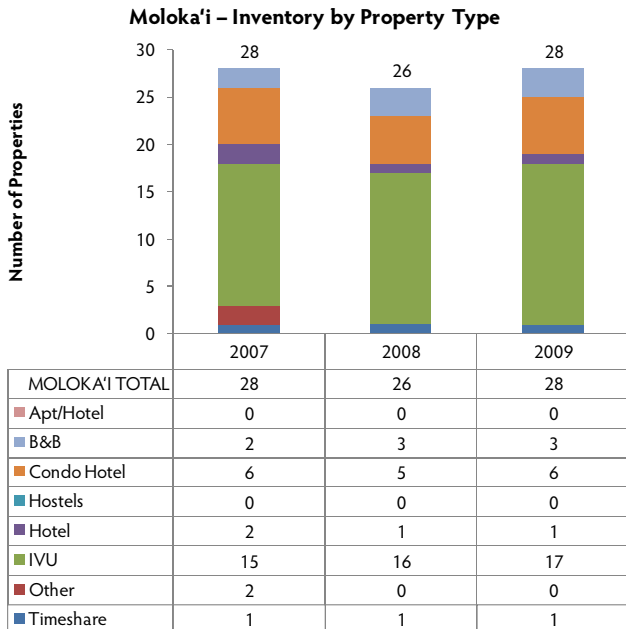

Figure 19

Lānaʻi

There were no significant changes in Lānaʻi's visitor plant inventory [Figure 21]. Hotels comprised the majority of Lānaʻi's lodging supply. All other property types totaled only 5 units. Lānaʻi was the only island where no timeshare units were reported. Nearly all of Lānaʻi's units fell within the Luxury and Deluxe price classes (95.8 percent) [Figure 23].

Figure 21

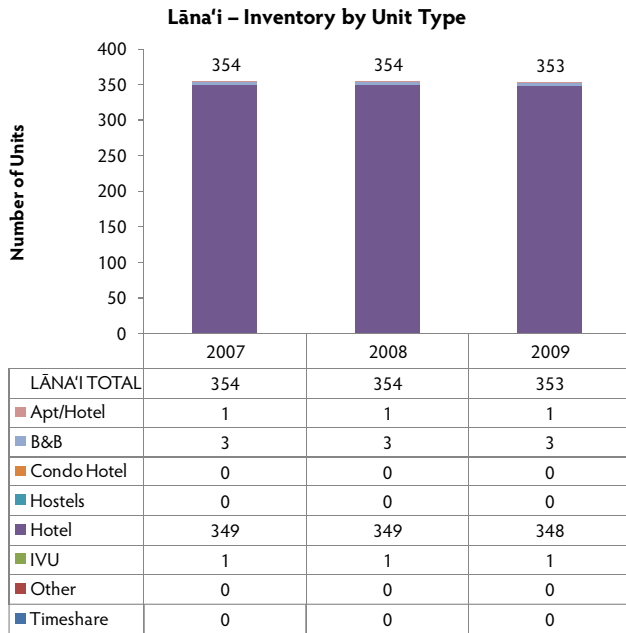

Figure 23

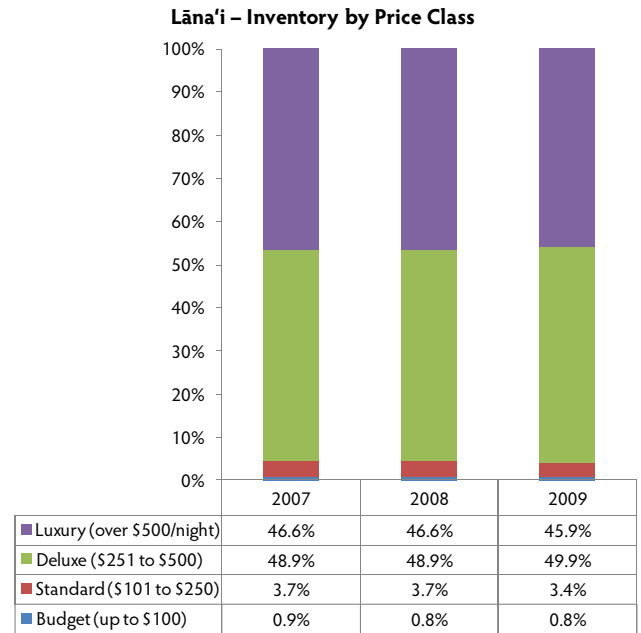

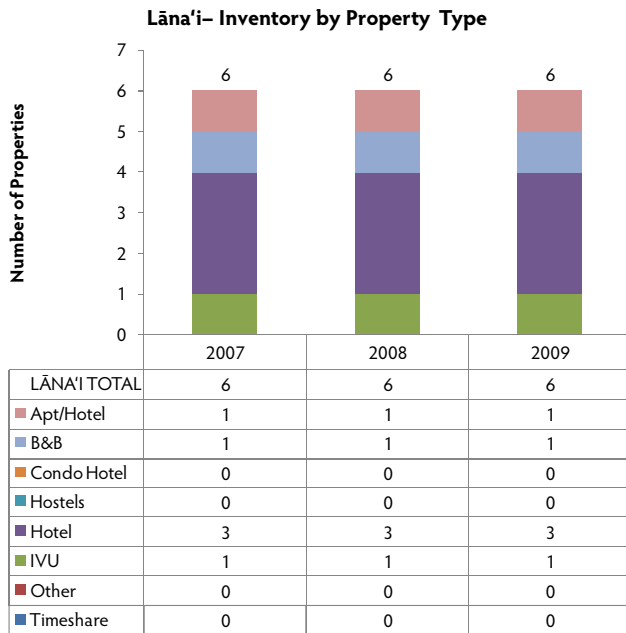

Figure 22

Inventory by Type

Hotels

Hawai'i's hotel room supply has remained relatively stable over the last three years, with variances stemming from property renovations and redevelopments, including The Royal Hawaiian, Mauna Kea Resort, and the Sheraton Princeville [Figure 24]. The majority of the state's hotel units were located on O'ahu (60.2 percent).

Figure 24

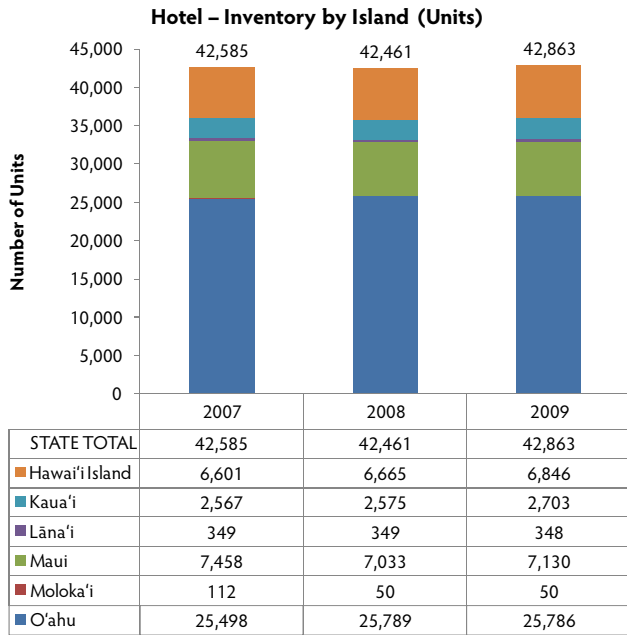

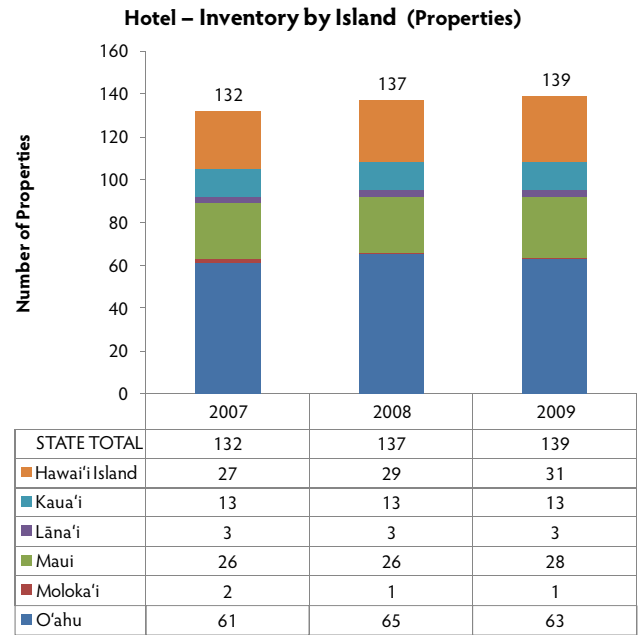

Figure 25

Condominium Hotels

Hawai'i's condominium hotel room supply has fluctuated over the last three years [Figure 26], with variances largely stemming from unit reclassifications to IVU [see Methods and Procedures]. The majority of the state's condominium hotels were located on Maui (41.1 percent) [Figure 27].

Figure 26

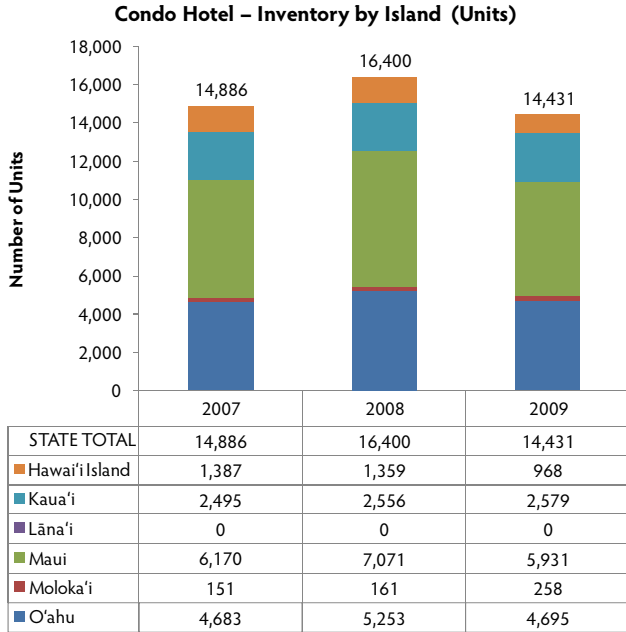

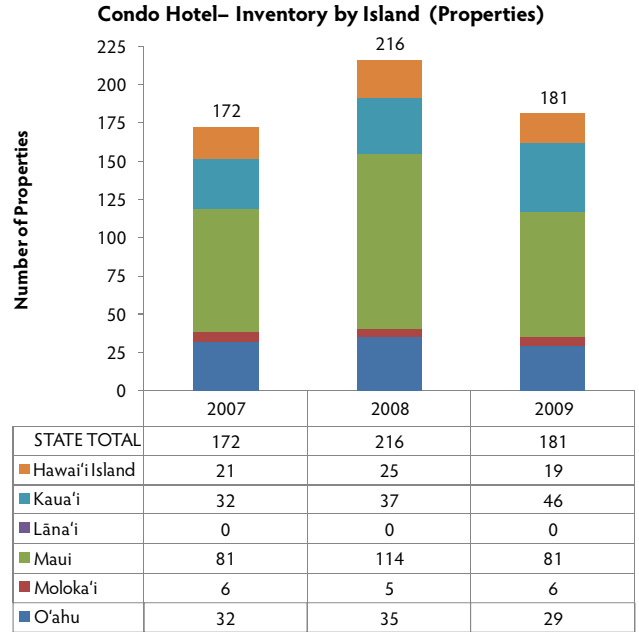

Figure 27

Timeshares

Nearly all new inventory statewide has been timeshare [Figure 28]. Hilton, Marriott, and Starwood have opened large luxury timeshare projects or added units to such projects on O'ahu, Maui, Hawai'i Island, and Kaua'i since 2007, and Disney has a timeshare project on O'ahu which will open Fall 2011.

Figure 28

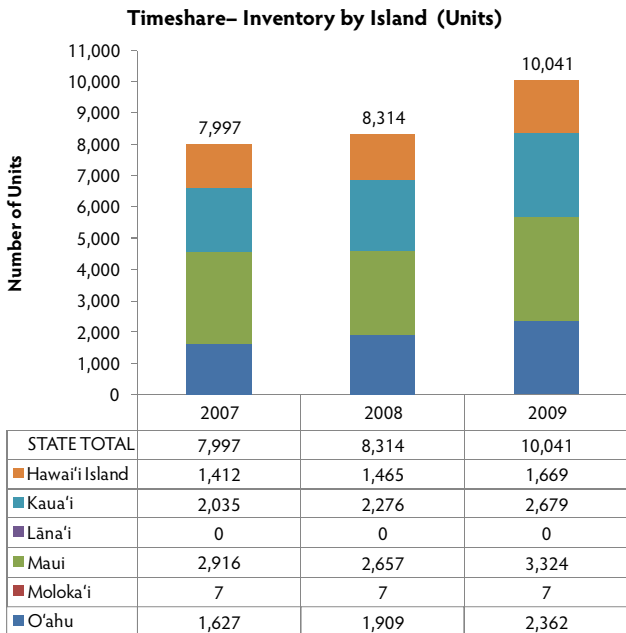

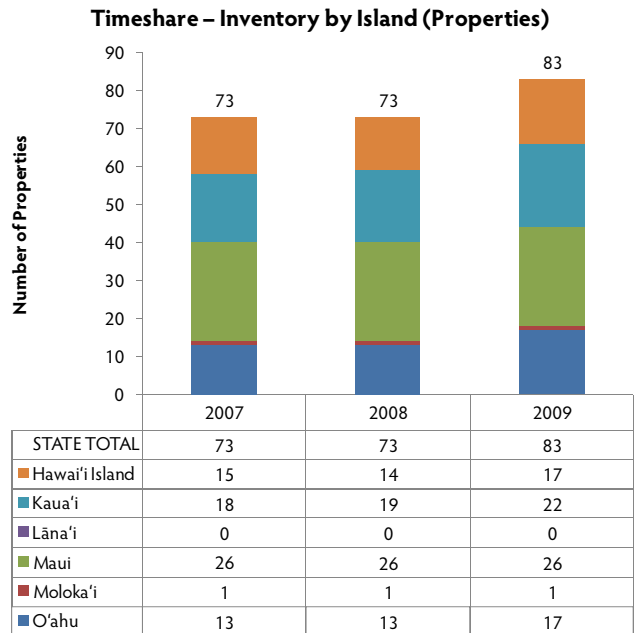

Figure 29

Individual Vacation Units

There were more IVUs in the state than any other property type, and IVUs frequently consisted of establishments with unit counts in the single digits. The overall number of IVU units recorded in the inventory has grown over time as more units were advertised over the internet and units formerly classified as condo hotel were reclassified as IVU [Figure 30].

Figure 30

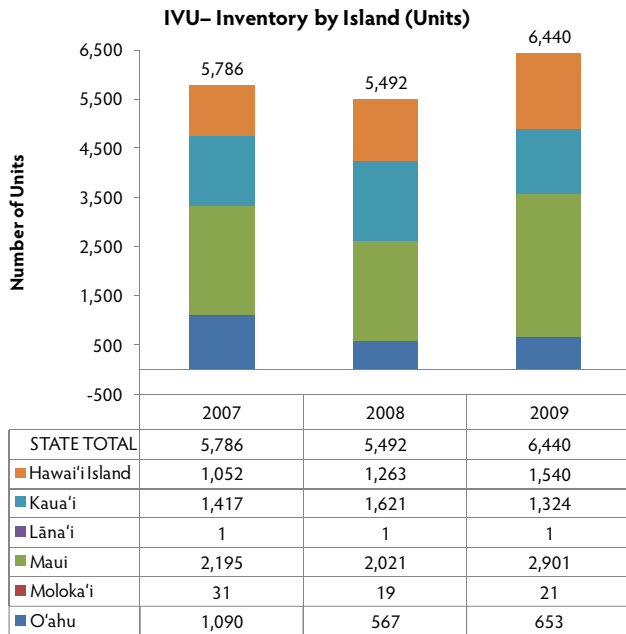

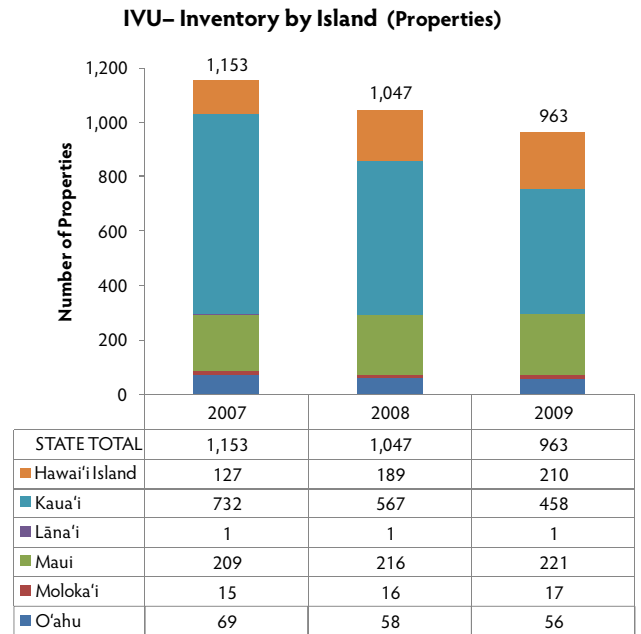

Figure 31

Bed & Breakfasts

The number of bed & breakfast (“B&B”) units and properties recorded in the VPI had risen partly due to the implementation of county licensing programs and increased discovery through internet searches [Figure 32 and 33].

Figure 32

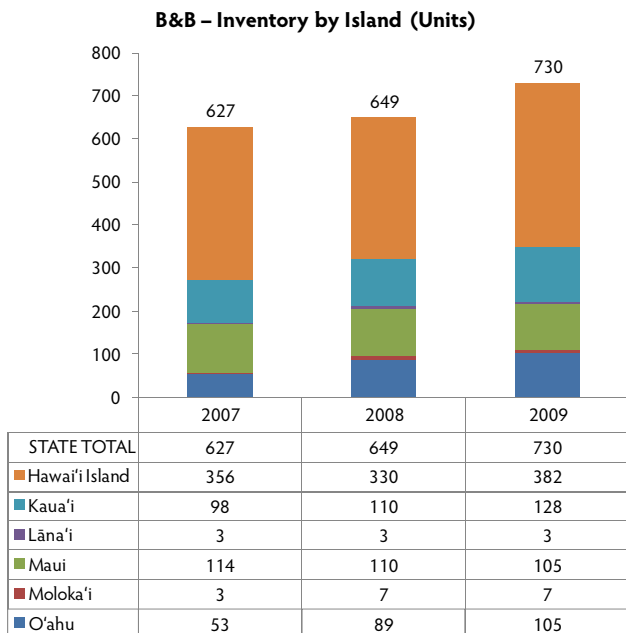

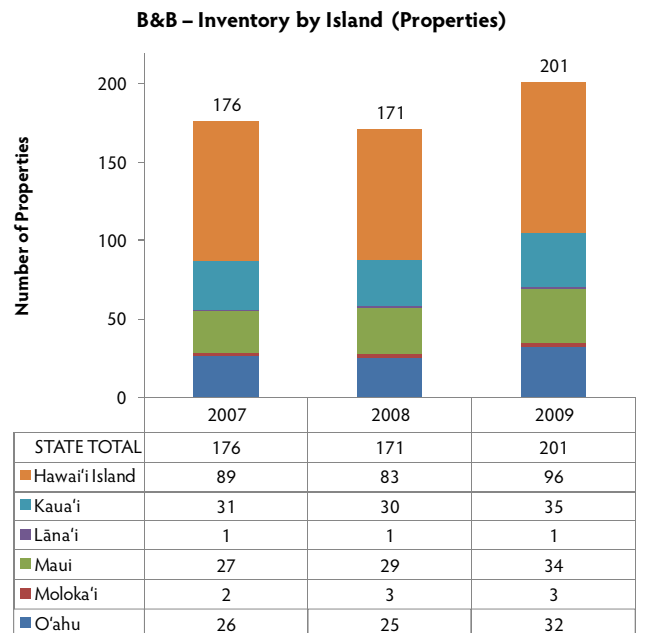

Figure 33

Apartment Hotels

The overall number of apartment hotel lodging units has declined since 2007, largely due to reclassification of units to other category types such as IVU and an increasing number of units no longer available for transient rentals [Figure 34]. Moloka'i was the only island without apartment hotel units.

Figure 34

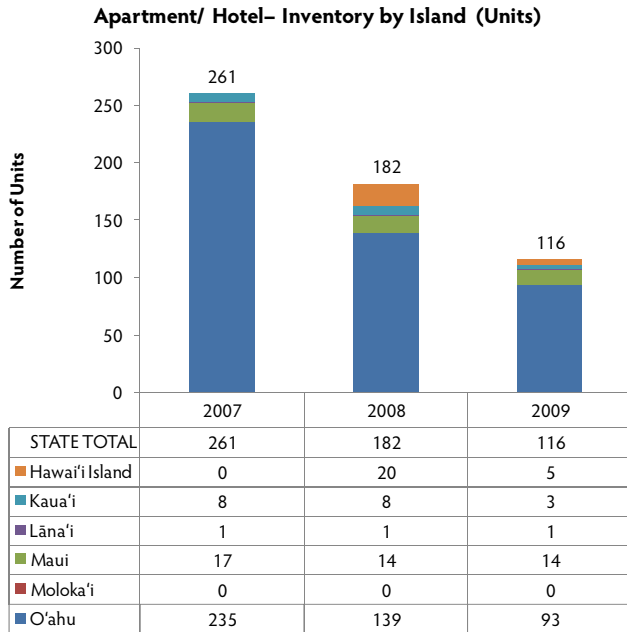

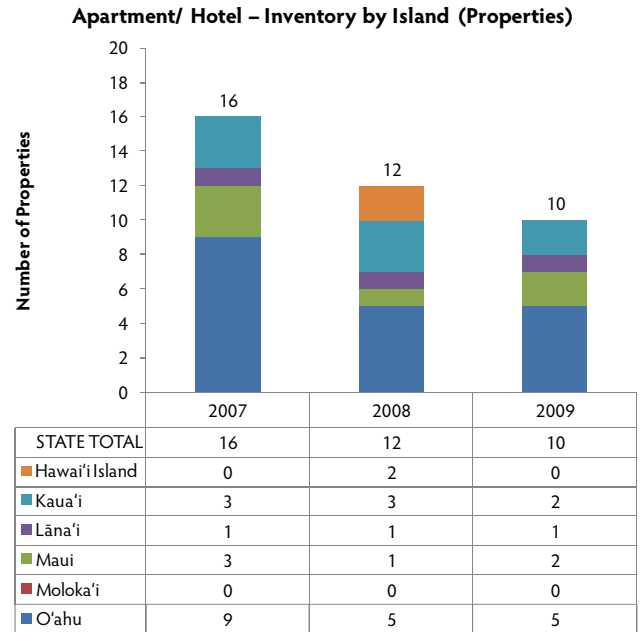

Figure 35

Hostels

There were only a dozen hostel properties in Hawai'i. Three hostels closed on O'ahu between the 2007 and 2008 surveys, but the hostel supply has remained flat on other islands [Figure 37]. There were no hostel properties on Moloka'i and Lāna'i.

Figure 36

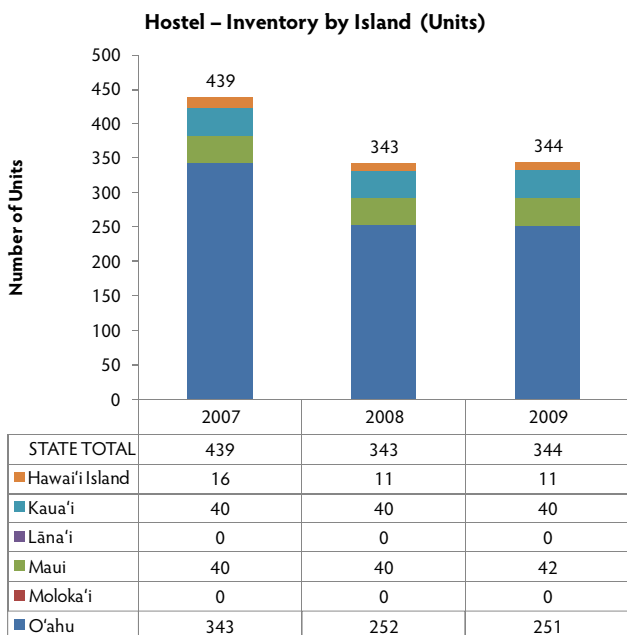

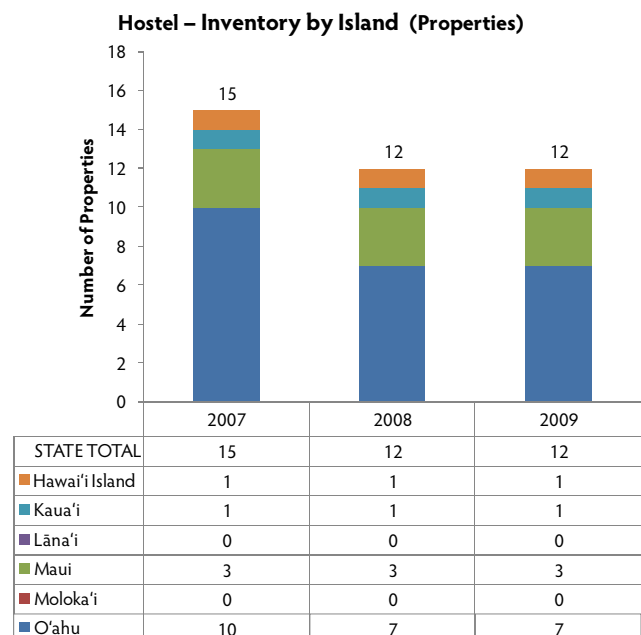

Figure 37

Other

The overall number of Other lodging units has decreased since 2007, largely due to reclassification of units to other category types [Figure 38].

2009 VISITOR PLANT INVENTORY: LIST OF PROPERTIES

Explanation of Categories

- Island = Island on which the property is located
- Area = Area of the island where the property is located
- Name = Name of property
- Type = Unit Type
- Available Units = Number of units available for visitor use
- Change from 2008 = Difference in available units between 2009 and 2008 for entire property.
- Opened = Year property first opened

Class

- B Number of visitor units classified as Budget (Up to \$100 per night)
- S Number of visitor units classified as Standard (\$101 to \$250 per night)
- D Number of visitor units classified as Deluxe (\$251 to \$500 per night)
- L Number of visitor units classified as Luxury (Over \$500 per night)
- N/A Not available

Last Response

- 2009 Survey form received in 2009
- 2008 No response received in 2009, information received in 2008
- 2007 No response received in 2009, information received in 2007
- 2006 No response received in 2009, information received in 2006

Notes

- A - Visitor unit count estimated by AOA (for units managed by others)
- B - Visitor unit count estimated by Resident Manager/Property Manager (for units managed by others)
- C - Visitor unit count estimated by Operator (for units managed by others)
- D - Visitor unit count estimated by Owner (for units owned by other Owners)
- E - Visitor unit count estimated by county tax departments
- F - Visitor unit count is for beds, not rooms, for Hostel property
- G - The property's reporting method changed from 2008
- H - Selected units closed for renovation (balance of the property open for business)
- I - Units reopened after renovation
- J - Added units (new construction)
- K - Survey responses indicate additional units available for transient rental
- L - Survey responses indicate units no longer available for transient rental

L

METHODS AND PROCEDURES

The 2009 Visitor Plant Inventory presents the results of HTA's enumeration of visitor accommodations in Hawai'i. Existing visitor accommodations as of May 1, 2009 as well as planned developments and additions to existing developments were catalogued.

Visitor Plant Inventory Survey: Information about transient accommodations was gathered mainly from a survey of existing visitor accommodation properties and management companies. Survey forms were sent to general managers, property managers and other individuals who could provide information about the property. The survey provided information about available units, planned additions and other information presented in this report.

Survey forms were distributed to all properties that participated in the prior year's survey and additional properties identified through the association survey (below) and internet research. Over 1,600 properties were identified as part of a detailed web search using pertinent key word phrases, such as "Vacation Units In Hawaii," "Hawaii B&B," "Hawaii Hostels," etc. Information for hotel and condominium hotel properties that participate in Smith Travel Research's monthly survey were also cross-verified against Smith Travel Research's property database. Survey forms were distributed via mail, email, and fax.

If no response was received, follow-up telephone calls, emails, and/or faxes were made to the property to remind them to complete and return the form. Subsequently, if no response was received after the follow-ups, an Internet search was conducted to determine if the property was still in business and telephone calls were made to verify unit counts and types. If no response was received or no data was found on the Internet, but information was available from prior years (2006, 2007, and 2008), that information was included and so noted. If no response was received from a

property and information was available from the association survey, such information was included and so noted. If no survey form was returned and no information was available from previous years or other sources, the property was listed as a non-respondent.

Association Survey: Continued in 2009, this survey's purpose was to gather contact information of associations whose members were transient visitor accommodations in the State of Hawai'i. Letters were sent to these associations to request member accommodation contact information, from which the mailing list was updated and new accommodations were contacted via mailing as described above.

Timeshare Properties: Information on timeshare properties were gathered through the survey questionnaire, which asked for information on the number of units *registered* as timeshare and units *operated* as timeshare. The number of units registered included those that were available for sale as well as those currently in use by visitors. The number of units operated represented the units that have been sold and were in use. The available timeshare units listed in Tables 3 and 5 and their related charts were the total number of operated units. The number of timeshare properties listed in Tables 2 and 4 were the properties with the majority of units classified as timeshare. However, the number of available units listed with the timeshare category included those units that were cross-listed under the other property types. The 2009 Current Visitor Plant Inventory details the unit types available at each property.

For 2009, certain timeshare operators reported their inventory counts in terms of individual guest rooms (keys) rather than timeshare units previously reported. For example, a two-bedroom timeshare unit may, depending configuration, be rented separately as two guest rooms: a one-bedroom unit and as a studio unit. This change in reporting procedure resulted in a higher inventory count for

certain timeshare properties, but did not necessarily reflect a change in the physical plant.

Cross Verification of Data:

Responses from selected hotels, condominium hotels, and timeshare properties were cross verified against Smith Travel Research's property database and data from the American Resort Development Association.

Unit Type Classification:

Each unit reported in the survey was assigned a unit type based on HTA's type definitions [page 77]. For the purposes of classification, a given property may include more than one unit type. Historically, type classifications were self-selected by the respondent but research has shown that the response was not always consistent with HTA's type definitions. In such cases, the unit type was corrected for the 2009 VPI report.

Notably, many respondents classified their units as condominium hotel due to the units' location within a condominium building, but did not have the services or amenities included in HTA's definition

for a condominium hotel. These units were reclassified as individual vacation units.

Property Type Classification:

Classification of property type (Tables 2 & 4) for properties with more than one unit type was determined by the majority of units on that property. Historically property type was self-selected by the respondent but research has shown that the response was not always consistent with HTA's type definitions [page 77].

Planned New Developments: Information about planned new developments was gathered with assistance from the four county Planning Offices. The information was reprinted here and includes projects and developments that have achieved some level of jurisdictional approval. That was to say, these developments were a step beyond the preliminary stages of development and have some "official" standing as planned developments.

DEFINITIONS

Type of Units

An individual property may include more than one type of unit. If a property has more than one unit type, the majority unit type was used to determine the property type for the purposes of this report. Units were categorized as follows:

Apartment / Hotel (Apt/Hotel): Inexpensive units (usually in a low-rise building) equipped with kitchens and geared for long-term rentals. Front desk operations and maid service are usually limited and sometimes non-existent.

Bed & Breakfast (B&B): A lodging facility with a limited number of guest units, which include breakfast in the daily rental rate. Typical bed and breakfast facilities are either small, quaint inns, or family homes.

Condominium Hotel (Condo Hotel): A multi-unit property legally classified as a condominium with each unit individually deeded. Generally, units are collectively placed into transient hotel rental operations, offering most of the services of a hotel, such as daily maid service and front desk operations. Condominium units are usually larger than hotel units and include studios and one- to three-bedroom units, with kitchen and laundry facilities, geared for transient use of 30 days or less.

Hotel: A multi-unit lodging facility which provides room accommodations on a daily basis and generally, but not always, restaurant operations and other "away from home" services such as daily maid service and front desk operations. Includes condominiums if a single owner owns all units and the property is operated as defined here.

Hostels: An inexpensive, limited service facility, often with dormitory-style accommodations, appealing primarily to younger travelers.

Individual Vacation Unit (IVU): An individual vacation unit can be classified as an IVU-condominium unit (not in a hotel rental operation), and IVU-house, villa, or cottage with very limited service, often with only basic cleaning supplies provided, or an IVU-cabin unit. They can also be reported as unclassified and are listed as an individual vacation unit.

Timeshare: A timeshare is a kind of property ownership that allows guests to acquire a percentage of interest in a hotel unit, condominium/hotel, bed and breakfast, individual vacation home etc. for a specific period of time on a recurring basis. This share could be one week per year (i.e. 1/52 share) or more; some resorts offering one week every other year (1/104 share) or four weeks per year (1/13 share).

The survey questionnaire asks for information on the number of units registered as timeshare and units operated as timeshare. The number of units registered includes those that are available for sale as well as those currently in use by visitors. The number of units operated represents the units that have been sold and are used.

Other: Includes residential condominium units, timeshare units, motels, lodges, inns, or any other form of property not included in the above definitions.

Class of Units

The Visitor Plant Inventory survey also included questions about the class of units at each property. The subsequent tables show the percent of each class of units available by island. Units were classified as follows:

<u>Class</u>	<u>Price Range (Rack Rate)</u>
Budget	Up to \$100 per night
Standard	\$101 to \$250 per night
Deluxe	\$251 to \$500 per night
Luxury	Over \$500 per night

APPENDIX: SURVEY FORMS

Repeat Participant Survey Form

The Hawai'i Tourism Authority is updating the State of Hawai'i annual Visitor Plant Inventory, the official census of visitor accommodations in the state. All information should be correct as of **May 1, 2009**. Definitions for each property type are listed on the Property Type Definition Sheet. Please sign the form and return it to Hospitality Advisors LLC by fax to (808) 550-8855 or email to survey@hospitalityadvisors.com. For further information or clarification, please contact Hospitality Advisors at (808) 550-8955. **Mahalo for your cooperation.**

Definition Sheet

VISITOR PLANT INVENTORY SURVEY DEFINITION SHEET

<i>Apartment / Hotel</i>	Inexpensive units (usually in a low-rise building) equipped with kitchens and geared for long-term rentals. Front desk operations and maid service are usually limited and sometimes non-existent.
<i>Bed & Breakfast (B&B)</i>	A lodging facility with a limited number of guest units, which include breakfast in the daily rental rate. Typical bed and breakfast facilities are either small, quaint inns or family homes.
<i>Condominium Hotel</i>	A multi-unit property legally classified as a condominium with each unit individually deeded. Generally, units are collectively placed into transient hotel rental operations, offering most of the services of a hotel, such as daily maid service and front desk operations. Condominium units are usually larger than hotel units and include studios and one- to three-bedroom units, with kitchen and laundry facilities, geared for transient use of 30 days or less.
<i>Hotel</i>	A multi-unit lodging facility which provides room accommodations on a daily basis and generally, but not always, restaurant operations and other "away from home" services such as daily maid service and front desk operations. Includes condominiums if a single owner owns all units and the property is operated as defined here.
<i>Hostel</i>	An inexpensive, limited service facility, often with dormitory-style accommodations, appealing primarily to younger travelers.
<i>Individual Vacation Unit (IVU)</i>	An individual condominium unit (not in a hotel rental operation), house, cabin, villa or cottage with very limited service, often with only basic cleaning supplies provided.
<i>Timeshare</i>	<p>A timeshare is a kind of property ownership that allows guests to acquire a percentage of interest in a hotel unit, condominium/hotel, apartment/hotel, bed and breakfast, individual vacation home etc. for a specific period of time and on a recurring basis. This share could be one week per year (i.e. 1/52 share) or more; some resorts offering one week every other year (1/104 share) or four weeks per year (1/13 share).</p> <p>The survey questionnaire asks for information on the number of units registered as timeshare and units operated as timeshare. The number of units registered includes those that are available for sale as well as those currently in use by visitors. The number of units operated represents the units that have been sold and are used.</p>
<i>Other</i>	Includes motels, lodges, inns, or any other form of property not included in the above definitions.
<i>Owner-Occupied</i>	Units not available for transient visitor use (30 days or less).
