# November 2023 Hawai'i Vacation Rental Performance Report

Vacation rentals across Hawai'i reported increases in supply, average daily rate (ADR) and demand, with a lower occupancy rate in November 2023 when compared to November 2022. In comparison to pre-pandemic November 2019, ADR was higher in November 2023, but vacation rental supply, demand, and occupancy were lower.

The State of Hawai'i Department of Business, Economic Development & Tourism (DBEDT) issued today the Hawai'i Vacation Rental Performance Report for the month of November utilizing data compiled by Lighthouse Intelligence, Ltd.

In November 2023, the total monthly supply of statewide vacation rentals was 788,400 unit nights (+23.3% vs. 2022, -14.2% vs. 2019) and monthly demand was 398,300 unit nights (+9.1% vs. 2022, -36.8% vs. 2019) (Figures 1 and 2). This combination resulted in an average monthly unit occupancy of 50.5 percent (-6.6 percentage points vs. 2022, -18.1 percentage points vs. 2019) for November. Occupancy for Hawai'i's hotels was 72.9 percent in November 2023.

The ADR for vacation rental units statewide in November was \$294 (+0.4% vs. 2022, +39.3% vs. 2019). By comparison, the ADR for hotels was \$350 in November 2023. It is important to note that unlike hotels, units in vacation rentals are not necessarily available year-round or each day of the month and often accommodate a larger number of guests than traditional hotel rooms.

The data in DBEDT's Hawai'i Vacation Rental Performance Report specifically excludes units reported in Hawai'i Tourism Authority's Hawai'i Hotel Performance Report and Hawai'i Timeshare Quarterly Survey Report. A vacation rental is defined as the use of a rental house, condominium unit, private room in a private home, or shared room/space in a private home. This report does not determine or differentiate between units that are permitted or unpermitted. The legality of any given vacation rental unit is determined on a county basis.

#### **Island Highlights**

On November 1, 2023, the final phases of reopening West Maui, except Lahaina, after the August 8 wildfires started, resulting in increased unit night supply and unit night demand in Kā'anapali, Nāpili and Kapalua when compared to last month. The vacation rental units in Lahaina continued to be inactive for November. In November 2023, Maui County had the largest vacation rental supply at 235,400 available unit nights (+18.7%) vs. 2022, -22.6% vs. 2019). Unit demand was 122,900 unit nights (-3.1% vs. 2022, -46.8%

#### About the Hawai'i Vacation Rental Performance Report

The Hawai'i Vacation Rental Performance Report is produced using data compiled by Lighthouse Intelligence, Ltd., which was selected by DBEDT as the provider for these data services.

The report includes data for properties that are listed on Airbnb, Booking.com and HomeAway. Data for units included in HTA's Hawai'i Hotel Performance Report and DBEDT's Hawai'i Timeshare Quarterly Report have been excluded from the Hawai'i Vacation Rental Performance Report. This report also does not determine or differentiate between units that are permitted or unpermitted. The legality of any given vacation rental unit is determined on a county basis. DBEDT and HTA do not support illegal vacation rentals.

Lighthouse enriches their occupancy and price calculations with reservation data provided by vacation rental software providers, online travel agencies and local property managers. Currently, the reservations data provided by data partners represent about 33.5 percent of the estimated total unique vacation rental properties in the State of Hawai'i.
