There were 11,062 timeshare units (+3.2%) in 2017, representing 13.8 percent of the State's lodging units. The majority of Hawai'i's timeshare supply is located on Maui and O'ahu. Both islands have nearly a third of the state's total timeshare units (30.5% and 30.1% share, respectively).

Condo hotels were the fourth largest property type in 2017 (13.5%) with 10,875 visitor units. Condo hotels consist of individually deeded condominium units but provide hotel-like services such as a front desk and often daily housekeeping service. The overall number of condo hotel units decreased slightly (-0.4%). Most of the State's condo hotel supply was located on Maui (4,402 units) and O'ahu (4,246 units).

VISITOR SATISFACTION

Visitor satisfaction levels are an important indicator of visitor industry performance, providing feedback on how well services are delivered and how well those services fulfill visitors' expectations. High satisfaction encourages return trips to Hawai'i and results in a higher likelihood to recommend Hawai'i as a vacation destination. This section examined the first four questions from the 2017 Visitor Satisfaction and Activity survey (VSAT).

Overall Ratings of Most Recent Vacation to Hawai'i

The majority of respondents in 2017 continued to give high marks for their overall experience in Hawai'i.

- In 2017, 88.9 percent of U.S. West respondents gave “excellent”⁶ rating to their overall trip to the islands, consistent with a year ago (88.2%).
- Excellent ratings by respondents from U.S. East (91.6%), Japan (79.3%), Canada (88.6%), Europe (88.6%) and Oceania (+0.2%) were similar to last year.
- Excellent ratings by Chinese respondents improved 5.3 points to 81.8 percent in 2017.
- Three out of four Korean (74.9%) respondents in 2017 gave excellent ratings to their trip to Hawai'i compared to 77.7 percent last year.

Meeting Visitors' Expectations

Visitors' evaluation of their trip is influenced not only by the nature of the service they receive, but also by their needs, motivations, and interests. Overall, Hawai'i's ability to exceed expectations remained quite strong. In 2017, very few respondents from U.S. East (2.1%), Japan (2.3%), U.S. West (2.5%), Canada (2.7%), Europe (2.8%), Oceania (4.7%), China (4.7%) and Korea (6.7%) said that Hawai'i “did not meet” their expectations.

- In 2017, more than half of the respondents from U.S. East (52.7%), Europe (51.4%) and Korea (51.1%) and felt their trip exceeded their expectations.
- Four out of ten respondents from U.S. West (43.3%), Canada (42.3%), Japan (41.9%) and Oceania (37.9%) said Hawai'i exceeded their expectations.
- Chinese visitors were more critical about Hawai'i than other visitor groups. Only 23.7 percent of the respondents felt that Hawai'i “exceeded” their expectations while 71.6 percent said the trip “met” their expectations.

⁶ Excellent ratings are the sum of responses for ratings of seven and eight on an eight-point scale. Visitor satisfaction results presented in this section are based on preliminary 2017 data.

The full Visitor Satisfaction Report with final 2017 statistics will be posted on the HTA website in November 2018 at: www.hawaiitourismauthority.org/research/visitor-satisfaction-and-activity/

Likelihood to Recommend Hawai‘i

Highly satisfied visitors are more likely to recommend their vacation destination to their friends and family. The majority of visitors surveyed in 2017 said they would very likely recommend Hawai‘i to others.

- Nine out of ten U.S. East (89.3%), U.S. West (88.9%) and Canadian (88.6%) respondents in 2017 would very likely recommend Hawai‘i. These ratings have been relatively consistent over the last six years.
- Slightly above 80 percent of respondents from Europe (83.2%) and Oceania (80.1%) would very likely recommend Hawai‘i. Their ratings in 2017 were similar to year ago.
- Japanese visitors’ ratings have been hovering near 80 percent. Ratings in 2017 (76.1%) were similar to last year.
- In 2017, 80 percent of Chinese respondents would very likely recommend Hawai‘i to their friends and relatives, up from 65.9 percent in 2016.
- Ratings from Korean respondents (77.3%) were lower than last year (83.2%).

Likelihood to Revisit Hawai‘i

Each visitor’s decision to return to Hawai‘i is influenced by a variety of factors: positive experiences during their most recent trips, a desire for new experiences, amount of time available, financial considerations, and other commitments. Likelihood to revisit Hawai‘i is an indicator of future demand and changes in desires. The percentage likely to return was closely correlated to distance from Hawai‘i.

- U.S. West respondents continued to show the highest overall willingness to revisit Hawai‘i in the next five years. However, their ratings of 74.2 percent were down from 79.3 percent in 2016.
- Ratings by respondents from Canada (65.2%), U.S. East (57.8%), Oceania (56.9%), Japan (56%) were similar to 2016.
- With the long distance and no direct flights to Hawai‘i, European visitors continued to show the lowest percentage of likelihood to return (44.2%), consistent with last year (45%).
- Ratings from Chinese respondents improved 10.7 points to 63 percent.
- Seven out of ten Korean respondents (72.6%) in 2017 said that they would very likely revisit Hawai‘i in the next five years, down from 79.7 percent in 2016.

APPENDIX A

TECHNICAL NOTES

DEFINITIONS

Airline Passenger Counts: Every airline is required to complete an Air Traffic Summary Report to the Department of Transportation on a monthly basis (both chartered and scheduled flights). The report shows passenger counts from U.S., Canada, Japan, Europe, Other Asia, Oceania and Other Pacific, arriving to the Honolulu International, Kahului, Kona, Hilo and Lihue airports, and also includes counts of any in-transit passengers (international or domestic).

Arrivals by Air: Visitors who entered Hawai'i via arriving airline flights, not including visitors who arrived into Hawai'i via out-of-state cruise ships. The data reported under this section were derived from Domestic In-flight survey and the International Departure survey.

Arrivals by Cruise Ships: Visitors who entered Hawai'i via foreign-flagged cruise ships. The data reported under this section were derived from monthly State of Hawai'i Department of Transportation - Harbors reports and from the Cruise survey.

Cruise Ships (Arrivals by Air): Derived from the Domestic In-flight and International Departure surveys which sampled only visitor arrivals by air. This figure represented an estimate of visitors staying on cruise ships. This figure may not correspond with the number reported under the Cruise Visitors section, which was derived from the Cruise Visitor Survey and cruise ship passenger counts.

Cruise Ships, Foreign Flagged: These ships were not considered Hawai'i businesses and therefore on-ship spending were not included in the reported visitor expenditures.

Cruise Ship, U.S. Flagged: The Pride of America which is home-ported in Hawai'i was considered a Hawai'i business. Therefore, visitor expenditures for this ship included both on-ship and on-shore spending.

Daily Census: Average number of visitors present on a single day.

Domestic: Visitor who arrived on flights from the U.S. mainland. Total domestic arrivals included U.S. residents and foreign residents who came to Hawai'i on flights from the U.S. mainland. A foreign resident arriving on flights from the U.S. mainland was counted as a domestic visitor.

Expenditures: The U.S. dollar amount spent in Hawai'i attributed to a visitor. Included direct spending by visitors while in Hawai'i as well as any prepaid package purchased before arrival. Expenditure data does not include transpacific air costs to and from Hawai'i, commissions paid to travel agents or portions of the package in another state or country.

Expenditures, Total by Island: Included on-ship spending on U.S. flagged cruise ships. The expenditures were allocated to each island in proportion to visitor days.

Per Person Per Day (PPPD) Expenditures, by Island: The denominator was air and cruise visitor days by island.

Expenditures, Cruise Visitor: Expenditures by visitors onboard foreign flagged and U.S. flagged cruise ships. Expenditures by visitors onboard the U.S. flagged cruise ship included spending on ship

because the U.S. flagged cruise ship was considered a Hawai‘i business. Visitors onboard foreign flagged cruise ships reported only on island expenditures.

Group Tour: Visitors who traveled and participated in activities in a group with tour guide(s) much of the time during their visit.

In-transit, International:

- True Transit: Passengers who clear U.S. Immigration and Customs at Honolulu International Airport and then proceed to another city.
- Bonded transit: Passengers who are held in a sterile lounge area and reboard an aircraft without being processed by either U.S. Immigration or Customs.

In-Transit, Domestic:

- U.S. to Foreign: Passengers who arrive at Honolulu International Airport from the Mainland or the Neighbor Islands and reboard an aircraft destined for a foreign country (without leaving Honolulu International Airport).
- Neighbor Island to Mainland: Passengers who arrived at Honolulu International Airport from a Neighbor Island airport and reboard an aircraft destined for the Mainland (without leaving Honolulu International Airport).

Intended Residents: Air passengers who are intending to move to Hawai‘i and seek long-term residence for at least one year. Students or military members have often classified themselves in this category.

International: Visitor who arrived on flights from U.S. territories and foreign countries. A U.S. visitor who arrived on flight from a foreign country was counted as an international visitor.

Length of Stay: Average numbers of days visitors were present, including the day of arrival and of departure.

Major Market Areas (MMAs): Visitors were classified by their place of residence into the following geographical areas that were defined by the Hawai‘i Tourism Authority for marketing purposes to make the state more globally competitive:

1. U.S. West – Pacific (Alaska, California, Oregon, Washington) and Mountain (Arizona, Colorado, Idaho, Montana, Nevada, New Mexico, Utah and Wyoming) states.
2. U.S. East – Other States in the Continental U.S.
3. Japan
4. Canada
5. Europe – United Kingdom, Germany, France, Italy and Switzerland
6. Oceania – Australia and New Zealand
7. Other Asia – China, Hong Kong, Korea, Singapore and Taiwan
8. Latin America – Argentina, Brazil and Mexico
9. Other – All countries and districts not listed in MMA 1 to 8 above, including Guam, Puerto Rico, U.S. Virgin Islands and other U.S. territories

Market Penetration: Number of visitors from a given Metro Area (CBSA) divided by the population of that area. Reported as the rate per 1,000 visitors.

MC&I (Net): Visitors whose reasons for traveling were for corporate meetings, conventions, or incentives, or any combination of these reasons. If a visitor selected two or more sub-categories within the MC&I category, they were counted only once. Therefore, the sum of the sub-categories may be larger than the MC&I category.

Package: Visitors who purchased a packaged trip which included at least air-tickets and accommodations.

Passengers: The total number of people on a flight or on a cruise, including visitors and Hawai'i residents.

Pleasure (Net): Visitors whose reasons for traveling were for vacation, honeymoon, or to get married, or any combination of these reasons. If a visitor selected two or more sub-categories within the pleasure category, they were counted only once. Therefore, the sum of the sub-categories may be larger than the pleasure category.

Returning Hawai'i Residents: These air passengers are Hawai'i residents who are returning to the islands after travelling out of state for various purposes (pleasure, MCI, friends/family, school, etc.).

True Independent: Visitors who were not part of a tour group and did not purchase their air-tickets and accommodations as a package.

Seats, Scheduled: Total number of seats, on all flights reported by Diiō Mi, arriving into Hawai'i.

Seats, Charter: Number of seats, on all flights not reported by Diiō Mi but reported on the state monthly.

Seats, Total: Total number of seats, on all flights arriving into Hawai'i. The sum of Scheduled and Charter seats.

Supplemental Business Expenditures: Additional business expenditures spent locally on conventions and corporate meetings by out-of-state visitors (i.e. costs on space, equipment rentals, transportation, etc.). As of 2012, these figures were calculated using the Destination Marketing Association International (DMAI) Event Impact Calculator (EIC).

Visitor: Out-of-state traveler who stayed in Hawai'i for a period of time between one night but less than one year. Air Visitors were calculated by subtracting the estimated in-transit passengers, returning Hawai'i residents and intended residents from the Airline Passenger Counts. Visitors by cruise ships were calculated by subtracting Hawai'i resident from counts of passengers who came to Hawai'i aboard foreign flagged cruise ships.

SOURCES OF DATA FOR VISITOR STATISTICS

The data in this report came from the following sources:

Air Traffic Summary Report: All domestic and international airlines with flights to the Hawaiian Islands are required to complete this report of airline passenger counts and in-transit counts and submit them to the Department of Transportation – Airports Division, by the 10th of each month with data for the previous month.

Summary of International Travel to the United States report: The International Visitor Arrivals Program provided the U.S. government and the public with the official U.S. monthly and final overseas visitor arrivals to the U.S. based on using the INS I-94 form data, which all U.S. non-citizens must complete to enter the United States. The National Travel and Tourism Office (NTTO) manages the program. The monthly reports provided counts of international visitors to Hawai‘i by their country of residence. The reports also identified those simply passing through Hawai‘i (in-transit). Canadian and U.S residents were not included in these counts.

International Intercept Survey: Surveys were distributed to a systematic sample of passengers in the boarding area and walkways at the Honolulu International Airport, the Kahului Airport on Maui, the Kona International Airport, and the Lihue Airport on Kaua‘i. In 2017, a total of 61,793 surveys were completed and processed. All usable forms were optically scanned and tabulated to produce the results presented here. This survey provided information on visitor characteristics such as party size, visit status, travel method, length of stay, island visitation patterns, accommodations, purpose of trip and demographic data. The survey also collects information on state-wide visitor expenditures. The characteristics of respondents were attributed to non-respondents using ascription. The 2017 International Intercept Survey form is included in Appendix B.

Domestic Survey: The domestic survey form is on the reverse side of the Hawai‘i State Department of Agriculture’s mandatory Plants and Animals declaration form. The dual-sided forms were distributed to passengers on all flights from the U.S. mainland to Hawai‘i every day of the year. In 2017, there were 3,534,555 usable forms collected and processed. All usable forms were optically scanned and tabulated to produce the results presented here. This survey provided information on visitor characteristics such as party size, visit status, travel method, length of stay, island visitation patterns, accommodations, purpose of trip and demographic data. Some characteristics of respondents were attributed to non-respondents using ascription. The 2017 Domestic Survey form is included in Appendix B.

Island Visitor Survey: Surveys were conducted at departure area of the airports on all the islands. In 2017, 32,993 completed survey forms were received from Honolulu International Airport for O‘ahu specific data, 16,591 completed forms received from Maui, 713 forms from Moloka‘i, 858 forms from Lāna‘i, 11,232 forms from Kaua‘i, 5,428 forms from Hilo, and 12,245 forms from Kona. The Island Visitor Survey provided island by island specific information such as purpose of trip, accommodation, length of stay and expenditures. The 2017 Island Visitor Survey form is included in Appendix B.

Cruise Visitor Survey: The Cruise visitor survey forms are distributed to all cabins on passenger ships in Hawaii during the year. Data collected from cruise visitors include purpose of trip, island visitation and spending by island. The questionnaire used on foreign flagged ships did not include on-ship spending. In 2017, a total of 14,127 completed forms were processed for cruise visitor information. The 2017 Cruise Survey form is included in Appendix B.

Cruise Ship Passenger Counts Report: All cruise ships which entered Honolulu, Hilo, Kona, Lahaina, Kahului and Nāwiliwili Harbor reported passenger counts to the Department of Transportation, Harbors Division and the Department of Land and Natural Resources. HTA obtained monthly passenger counts from these harbors and estimated counts for other harbors based on this information. The HTA figures specifically look at the number of passengers who arrived in the state on cruise ships. Visitors who flew to Hawai‘i and then boarded the cruise vessel were captured in the surveys of air passengers.

Visitor Plant Inventory Survey: The purpose of this survey is to compile an accurate annual assessment of existing and planned visitor accommodations for the State of Hawai‘i by island, location, property type (hotel, condo-hotel, bed and breakfast, individual vacation units, rental house, hostels, timeshare, and apartment-hotel), and class of units (standard, budget, deluxe, luxury).

Hawai‘i Hotel Performance Data: STR, Inc. is the source of hotel occupancy rate, average daily room rate and revenue per available room data. Hotel performance statistics are posted on the HTA website: www.hawaiitourismauthority.org/research/infrastructure-research/

Air Seat Statistics: Since 2013, HTA has used airline schedules from Diio Mi as the source of its data on scheduled air seats. Diio Mi is an online database of airline industry data used by airlines, airports and destination marketing organizations across the U.S.

Daily Passenger Counts: published by the Department of Business, Economic Development and Tourism daily, these are counts of passengers on domestic and international flights, (excludes flights from Canada).

Visitor Satisfaction Survey (VSAT): This post trip survey collects data on visitors' satisfaction with Hawai‘i as a vacation destination, their willingness to return to the islands, activities they participated in, their trip planning, and their visitor profile. Survey forms were mailed to a sample of visitors from U.S. West, U.S. East, Japanese, Canada, Europe, and Oceania after they returned home from their trip to Hawai‘i. Respondents completed forms and returned them in postage-paid envelopes. English and Japanese-speaking respondents were also given the option of filling out the VSAT questionnaire online. Those who provided e-mail addresses were sent an e-mail invitation with the link to the survey.

U.S. samples were drawn from In-flight forms used in the Domestic Survey. Japanese samples were drawn from departure survey forms used in the International Intercept Survey. Canada, Europe and Oceania samples were drawn from both In-flight forms and departure survey forms. In 2017, 19,505 completed survey forms were collected via on-line from U.S. West, U.S. East, Japanese, Canada, Europe and Oceania visitors. Another 2,112 survey forms were collected from Chinese and Korean visitors through intercept surveys at Honolulu International Airport.
