About Ward Village®

Being developed by The Howard Hughes Corporation®, Ward Village is a 60-acre coastal master planned community in the heart of Honolulu, located between downtown and Waikīkī in the Kaka'ako district. Honoring the distinct history of its land, Ward Village is at the forefront of sustainable community development, integrating significant architecture, local culture and public space. New tree-lined sidewalks and bike lanes provide access to an over 100-acre public beach park, as well as the recently revitalized Kewalo Harbor. At full build-out, the development will include approximately one million square feet of unique retail experiences and thousands of homes in the community named "Master Planned Community of the Year" by the National Association of Home Builders and "Best Planned Community in the United States" by *Architectural Digest*.

Resulting from strong demand for new housing in Honolulu and the desire for an urban walkable lifestyle, Ward Village is quickly approaching the sellout of its first four mixed-use residential towers delivered —Waiea®, Anaha®, Ae'o®, and Ke Kilohana®—which are transforming the popular shopping and dining district into a vibrant neighborhood that offers ocean views and a thoughtfully curated mix of retail and lifestyle experiences, including its newly opened outdoor gathering place, Victoria Ward Park. Recent towers in development or under construction include A'ali'i, Kō'ula and most recently announced, Victoria Place.

Art and culture play an integral role at Ward Village, with public art highlighted throughout the neighborhood, including large-scale wall murals, sculptures and locally inspired exhibits. As a destination for art and culture, Ward Village continues to serve as the founding and co-title sponsor of the Honolulu Biennial.

As the first-ever LEED-ND Platinum certified master plan development in the country and the only one in Hawai'i, Ward Village is at the forefront of sustainable community development and will feature public amenities at a scale not offered by any other urban development in the state.
