**Footnotes for COVID-19 Cases**

*As a result of updated information, one case was recategorized from Honolulu to Hawaii.

†One case is a Lanai resident whose exposure is on Maui Island and who will be remaining on Maui Island for the interim.

‡Includes Hawaii residents hospitalized out of state.

§Includes cases that meet isolation release criteria (isolation should be maintained until at least 24 hours after resolution of fever and myalgia without the use of antipyretics OR at least 10 days have passed since symptom onset, whichever is longer). (The cases that have died and one case that has left the jurisdiction have been removed from these counts). Positive cases include confirmed cases, and Hawaii residents and non-residents; data are preliminary and subject to change. Note that CDC provides case counts according to states of residence.
