Footnotes for COVID-19 Cases

*As a result of updated information, two cases on Maui and one case on Oahu were removed from the counts.

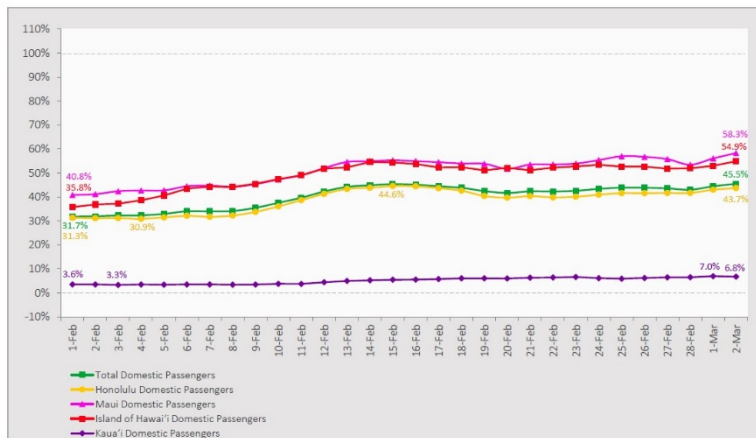

**Using cases reported in the past 14 days provides a rough approximation of the number of cases currently meeting criteria for isolation. This proxy number for "active cases" resolves classification issues for cases unable to be reached or who are out of jurisdiction, for whom precise release from isolation date may not be possible to determine. It is also not influenced by lags in data entry. (This total does not include Hawaii residents diagnosed outside of Hawaii).

†One case is a Lanai resident whose exposure is on Maui Island and who will be remaining on Maui Island for the interim.

‡Includes Hawaii residents hospitalized out of state.
