

2020 Annual Visitor Research Report

ABOUT THIS REPORT

The 2020 Annual Visitor Research report provides the final statistics on Hawai‘i’s visitor industry in 2020 and a comparison with 2019 visitor data. Included in this report are characteristics data from visitors who came to Hawai‘i by air or by cruise ship. Visitor statistics are categorized by Hawai‘i’s Major Market Areas (MMA), by select countries, purpose of trip, accommodation type and by island. Statistics about visitor room inventory, hotel occupancy, room rates and air seat capacity are also included.

2020 statistics presented in this report reflect immigration data from the U.S. Department of Commerce National Travel and Tourism Office (NTTO), updated air fare statistics from Cirium Diio Mi (DIIO) airline database and final reports received from airlines and cruise ships.

Technical notes: Due to COVID-19 restrictions, departure surveys were not conducted from April – October 2020. International visitor characteristics (excluding visitor spending) were collected from In-flight survey forms distributed to international flights from April 1 – May 15, 2020. International visitor characteristics data from May 16 – August 31 were compiled from the State of Hawai‘i Department of Health’s Mandatory Travel Declaration Form (MTD). International visitor characteristics data for September through October were compiled from the State of Hawai‘i Department of Enterprise Services’ Safe Travels Program (See Technical Notes in Appendix A for further details).

This report was produced by the Tourism Research Branch staff of the Department of Business, Economic Development and Tourism (DBEDT)/ Hawai‘i Tourism Authority (HTA): Jennifer Chun, Minh-Chau Chun, Lawrence Liu, Joseph Patoskie, Ariana Kwan, Peter Rockholm, and Noah Tadena.

STR Inc. provided hotel occupancy and room rate statistics.

SUMMARY OF 2020 VISITORS TO HAWAI'I

ALL VISITORS (BY AIR AND BY CRUISE SHIPS)

Hawai‘i’s visitor industry was severely impacted by the global COVID-19 pandemic in 2020. Total visitor arrivals to the Hawaiian Islands declined 73.9 percent from the previous year to 2,708,258 visitors. There were significantly fewer arrivals by air service (-73.9% to 2,678,073 visitors) and by cruise ships (-79.0% to 30,185 visitors) compared to 2019. Total visitor days fell 68.3 percent (Table 1).

Flight cancellations to the Hawaiian Islands began on February 3, 2020 with the suspension of direct air service from China due to a travel ban on Chinese citizens going to the U.S. On March 17, visitors were asked to postpone their trips to Hawai‘i for at least the next 30 days. Beginning March 26, Hawai‘i’s 14-day mandatory quarantine order went into effect for travelers arriving from out-of-state. Starting April 1, those traveling interisland were also required to quarantine for 14 days with few exemptions that included travel for essential health care workers and military. Subsequently, nearly all trans-Pacific and interisland flights were canceled and tourism to Hawai‘i was practically shut down. On June 16, the mandatory, 14-day quarantine for inter-island travelers was lifted for people traveling within the state among the Neighbor Islands. However, increased COVID-19 cases on O‘ahu in the months following, resulted in the reinstatement of a partial interisland quarantine on August 11 for anyone traveling to the counties of Kaua‘i, Hawai‘i, Maui, and Moloka‘i.

Hawai‘i welcomed visitors back starting October 15, with the launch of the pre-travel testing program which allowed passengers arriving from out-of-state and traveling inter-county to bypass the 14-day quarantine with a valid negative COVID-19 test result from a Trusted Testing and Travel Partner within 72 hours of their flight. Travelers were required to register with the Safe Travels Hawai‘i program before their trip and complete a mandatory health form. Those who did not take a COVID-19 test before flying had to quarantine for 14 days, and those who arrived with a pending test needed to quarantine until they received negative results. Effective November 24, all trans-Pacific travelers participating in the pre-travel testing program had to have a negative test result prior to their departure to Hawai‘i, and test results were no longer accepted once a traveler arrived in the state. On December 2, Kaua‘i County temporarily suspended its participation in the state’s Safe Travels program, making it mandatory for all travelers to Kaua‘i to quarantine upon arrival. On December 10, the mandatory quarantine was reduced from 14 to 10 days in accordance with the U.S. Centers for Disease Control and Prevention’s (CDC) guidelines.

In 2020, visitor arrivals by air service decreased sharply from U.S. West (-71.5% to 1,311,176), U.S. East (-70.3% to 676,150), Japan (-81.7% to 289,137), Canada (-69.6% to 164,393), Other Asia (-80.9% to 67,906), Oceania (-86.1% to 50,710), Europe (-84.4% to 21,550) and Latin America (-75.5% to 6,211) (Table 1).

Arrivals by air service to O‘ahu dropped 75.5 percent to 1,506,316 visitors compared to 2019. Arrivals to Maui decreased 74.1 percent to 792,602 visitors. Arrivals to Hawai‘i island declined 72.0 percent to 493,817 visitors. Arrivals to Kaua‘i fell 75.9 percent to 330,263 visitors. Arrivals to Lāna‘i dropped 78.7 percent to 17,924 visitors. Arrivals to Moloka‘i were down 73.0 percent to 17,025 visitors.

In 2020, total air seat capacity statewide decreased 60.9 percent from the previous year to 5,318,667 seats as a result of cutbacks in air service to Honolulu (-60.0% to 3,370,122 seats), Kahului (-61.9% to 1,102,166 seats), Kona (-59.2% to 514,422 seats), Līhu‘e (-67.7% to 322,993 seats) and Hilo (-81.3% to 8,964 seats) (Table 95).

Hawai‘i’s cruise industry was also greatly affected by the global pandemic. The CDC enforced a “No Sail Order” on all cruise ships from March 14 through October 30, 2020 due to the risk of cruise ship

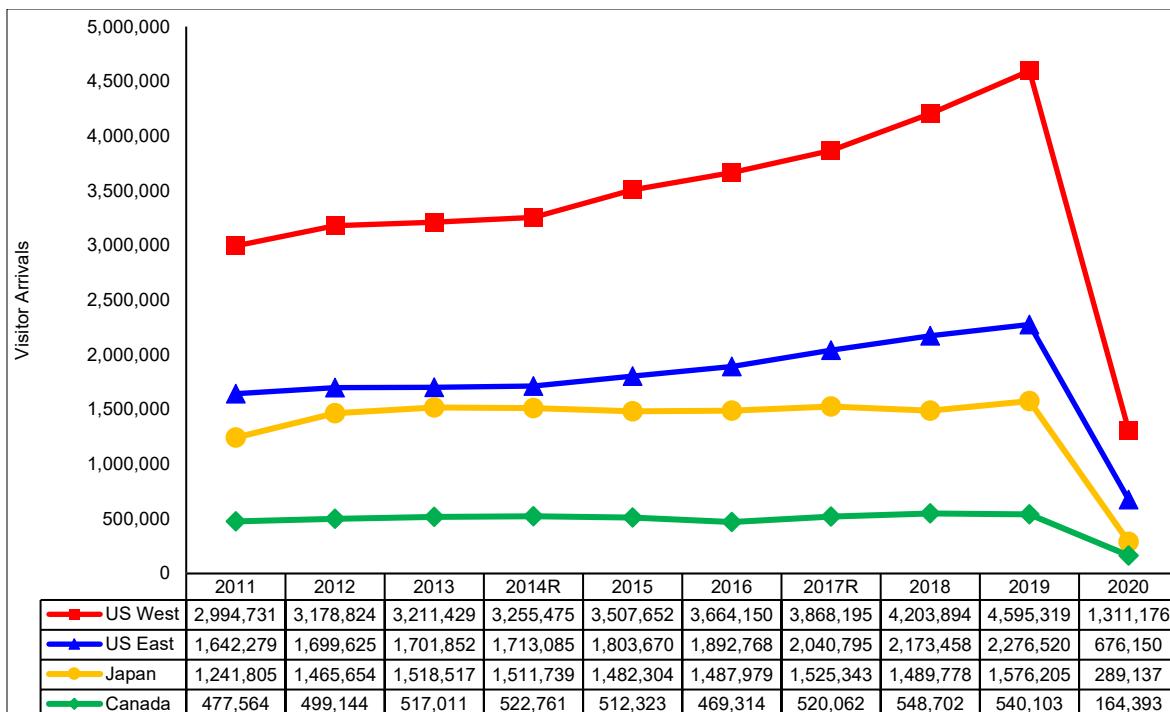

travel transmitting COVID-19. On November 1, the CDC reduced restrictions on cruise ships through a “Conditional Sail Order”, a phased approach for the resumption of passenger cruises as part of a plan to mitigate the risk of spreading COVID-19 onboard.

Only 18 out-of-state cruise ships with 30,185 visitors came to Hawai‘i from January to mid-March 2020, just prior to the CDC’s “No Sail” order. Cruise activities in the islands were suspended for the rest of the year (Table 91). In comparison, 68 cruise ships carried 143,508 visitors in 2019¹.

TECHNICAL NOTES

Due to COVID-19 restrictions, departure surveys were not conducted from April – October 2020. International visitor characteristics (excluding visitor spending) were collected from In-flight survey forms distributed on international flights from April 1 – May 15, 2020. International visitor characteristics data from May 16 – August 31 were compiled from the State of Hawai‘i Department of Health’s Mandatory Travel Declaration Form (MTD). International visitor characteristics data for September through October were compiled from the State of Hawai‘i Department of Enterprise Technology Services’ Safe Travels Program (Safe Travel). Questions regarding visit status (first-time/repeat) and travel method (package/non-package, group/non group, true independent) were not asked on the MTD and Safe Travel forms. Statistics for these categories were missing from international visitors from May – October 2020 and therefore not available to report for annual 2020. Corresponding data tables in this report have been footnoted.

Fielding for visitor spending was limited for 2020 due to COVID-19 restrictions. Spending statistics from U.S. West and U.S. East visitors who came by air service were only from January–March, and from November–December 2020. For Japan, Canada, Other Asia, Oceania, Europe, Latin America and Other markets, visitor spending data were from January–March 2020 only. Annual 2020 visitor statistics were not available. Visitor spending statistics for months in 2020 with available data are presented in Table 2 of this report.

DEFINITIONS

Airline Passenger Counts: Passengers arriving in Hawai‘i on trans-Pacific flights (both scheduled and chartered) from the U.S., Canada, Japan, Europe, Other Asia, Oceania and Other Pacific regions, as reported in the Air Traffic Summary Report, which airlines submit to the State of Hawai‘i, Department of Transportation each month. The report shows passenger counts arriving to the Daniel K. Inouye, Kahului, Ellison Onizuka, Hilo and Līhu‘e airports and includes counts of any in-transit passengers (domestic or international).

Arrivals by Air: Visitors who enter Hawai‘i via arriving trans-Pacific flights. This data is derived from the Domestic In-flight Survey and International Departure Survey.

Arrivals by Cruise Ships: Visitors entering Hawai‘i via foreign-flagged cruise ships. This data is derived from monthly reports from State of Hawai‘i Department of Transportation Harbors Division and Hawai‘i.PortCall.com, and from the Cruise Visitor Survey.

Cruise Ships (Arrivals by Air): An estimate of visitors staying on cruise ships who arrived in Hawai‘i via trans-Pacific flights. This figure may not correspond with the number reported under the Cruise Visitors section, which was derived from the Cruise Visitor Survey and cruise ship passenger counts.

Cruise Ships, Foreign Flagged: Ships that are not considered Hawai‘i businesses. On-ship spending is not included in the reported visitor expenditures.

Cruise Ship U.S. Flagged: The Pride of America which is home-ported in Hawai‘i is considered a Hawai‘i business. Visitor expenditures for this ship include both on-ship and on-shore spending.

Daily Census: Average number of visitors present in Hawai‘i on a single day.

Domestic: Visitor arriving on a trans-Pacific flight from the U.S. mainland or Alaska. Total domestic arrivals include U.S. residents and foreign residents who come to Hawai‘i on flights from the U.S. mainland or Alaska. A foreign resident arriving on flights from the U.S. mainland is counted as a domestic visitor.

Expenditures: The U.S. dollar amount spent in Hawai‘i attributed to a visitor. This includes direct spending by visitors while in Hawai‘i, as well as any prepaid package purchased before arrival. The expenditure data does not include trans-Pacific airfare costs to-and-from Hawai‘i, commissions paid to travel agents, or portions of the package in another state or country.

Expenditures, Total by Island: Includes on-ship spending on U.S. flagged cruise ships. The expenditures are allocated to each island in proportion to visitor days.

Per Person Per Day (PPPD) Expenditures, by Island: The denominator is air and cruise visitor days by island.

Expenditures, Cruise Visitor: Expenditures by visitors onboard foreign flagged and U.S. flagged cruise ships. Expenditures by visitors onboard U.S. flagged cruise ships include on-ship spending because U.S. flagged cruise ships are considered Hawai‘i businesses. Expenditures by visitors onboard foreign flagged cruise ships include only on-shore expenditures.

Group Tour: Visitors traveling and participating in activities in a group with a tour guide during much of their stay.

In-transit, International:

- True Transit: Passengers clearing U.S. Immigration and Customs at Daniel K. Inouye International Airport and proceeding to another city.
- Bonded transit: Passengers held in a sterile lounge area who re-board an aircraft without being processed by either U.S. Immigration and Customs Enforcement.

In-Transit, Domestic:

- Neighbor Island to Mainland: Passengers arriving at Daniel K. Inouye International Airport from a neighbor island airport who re-board an aircraft destined for the U.S. mainland (without leaving Daniel K. Inouye International Airport).

Intended Residents: Passengers arriving by trans-Pacific flights who are moving to Hawai‘i and seeking long-term residence for at least one year. Students or military members have often classified themselves in this category.

International: Visitors arriving on trans-Pacific flights from foreign countries and U.S. territories. A U.S. visitor arriving on a trans-Pacific flight from a foreign country is counted as an international visitor.

Length of Stay: The average number of days that visitors are present in Hawai‘i, including the day of arrival and day of departure.

Major Market Areas (MMAs): Visitors were classified by their place of residence in the U.S. or foreign country in the following geographical areas, as defined by HTA.

1. U.S. West – Pacific (Alaska, California, Oregon, Washington) and Mountain (Arizona, Colorado, Idaho, Montana, Nevada, New Mexico, Utah and Wyoming) states.
2. U.S. East – Other States in the Continental U.S.
3. Japan
4. Canada
5. Europe – United Kingdom, Germany, France, Italy and Switzerland
6. Oceania – Australia and New Zealand
7. Other Asia – China, Hong Kong, Korea, Singapore and Taiwan
8. Latin America – Argentina, Brazil and Mexico
9. Other – All countries and districts not listed in MMA 1 to 8 above, including Guam, Puerto Rico, U.S. Virgin Islands and other U.S. territories

Market Penetration: Number of visitors from a given Metro Area (CBSA) divided by the population of that area and reported as the rate per 1,000 visitors.

MC&I (Net): Visitors traveling to Hawai‘i for corporate meetings, conventions or incentives, or any combination of these reasons. A visitor selecting two or more sub-categories within the MCI category is counted once. Therefore, the sum of the sub-categories may be larger than the MCI category.

Package: Visitors who purchase a package trip that includes airline tickets and accommodations.

Passengers: The total number of people on a flight or on a cruise ship, including visitors and Hawai‘i residents.

Pleasure (Net): Visitors traveling for vacation, honeymoon or to get married, or any combination of these reasons. A visitor selecting two or more sub-categories within the pleasure category is counted once. Therefore, the sum of the sub-categories may be larger than the pleasure category.

Returning Hawai‘i Residents: Arriving passengers on trans-Pacific flights who are returning Hawai‘i residents after traveling out of state for various purposes (leisure, business, school, etc.).

True Independent: Visitors who are not part of a tour group and did not purchase airline tickets and accommodations as a package.

Seats, Scheduled: The total number of scheduled air seats on all flights reported by DIOO arriving into Hawai‘i.

Seats, Charter: The number of charter air seats on all flights not reported by DIOO, but reported by the State of Hawai‘i monthly.

Seats, Total: The total number of all air seats for both scheduled and charter flights arriving in Hawai‘i.

Supplemental Business Expenditures: Additional business expenditures spent in Hawai‘i on conventions and corporate meetings by out-of-state visitors (i.e. costs on space, equipment rentals, transportation, etc.). As of 2012, these figures were calculated using the Destination Marketing Association International (DMAI) Event Impact Calculator (EIC).

Visitor: The out-of-state traveler who stays in Hawai‘i for at least one night but less than one year. Visitors arriving by trans-Pacific flights are calculated by subtracting the estimated in-transit passengers, returning Hawai‘i residents and intended residents from the Airline Passenger Counts. Visitors arriving by cruise ships are calculated by subtracting Hawai‘i residents from counts of passengers who came to Hawai‘i onboard foreign-flagged cruise ships.

SOURCES OF DATA FOR VISITOR STATISTICS

The data in this report came from the following sources:

Air Traffic Summary Report: All domestic and international airlines with flights to the Hawaiian Islands are required to complete this report of airline passenger counts and in-transit counts and submit them to the Department of Transportation – Airports Division, by the 10th of each month with data for the previous month.

Summary of International Travel to the United States report: The International Visitor Arrivals Program provided the U.S. government and the public with the official U.S. monthly and final overseas visitor arrivals to the U.S. based on using the INS I-94 form data, which all U.S. non-citizens must complete to enter the United States. The National Travel and Tourism Office (NTTO) manages the program. The monthly reports provided counts of international visitors to Hawai‘i by their country of residence. The reports also identified those simply passing through Hawai‘i (in-transit). Canadian and U.S residents were not included in these counts.

International Intercept Survey: Surveys were distributed to a systematic sample of passengers in the boarding area and walkways at the Honolulu International Airport, the Kahului Airport on Maui, the Kona International Airport, and the Līhu‘e Airport on Kaua‘i. In 2020, a total of 14,521 surveys were completed and processed for the months of January-March 2020, and from November-December 2020. All usable forms were optically scanned and tabulated to produce the results presented here. This survey provided information on visitor characteristics such as party size, visit status, travel method, length of stay, island visitation patterns, accommodations, purpose of trip and demographic data. The survey also collects information on state-wide visitor expenditures. The characteristics of respondents were attributed to non-respondents using ascription.

The International Intercept Survey form is included in Appendix B.

Mandatory Travel Declaration Form (MTD): Per Hawai‘i Revised Statutes Section 127A-12 and 127A-13. From the State of Hawai‘i Department of Health, effective May 16 through August 31, 2020 this form was required for all air passengers and crew members to complete. To screen and monitor travelers for COVID-19, questions on the form included traveler information, contact information during their stay in Hawai‘i, flight information, destination location, purpose of visit, travel information and health history.

Safe Travels Program Form (Safe Travel): This digital platform was launched on Sept. 1, 2020 by the State of Hawai‘i Department of Enterprise Technology Services. Travelers were required to use the Safe Travels app to complete their Profile, Trips, and Health Questionnaire to obtain a QR code. Once the online travel forms were completed, a reminder email will be sent notifying the traveler to enter their health information no sooner than 24 hours before departure.

In-Flight Form (Domestic Survey): The domestic survey form is on the reverse side of the Hawai‘i State Department of Agriculture’s mandatory Plants and Animals declaration form. The dual-sided In-flight forms were distributed to passengers on all flights from the U.S. mainland to Hawai‘i every day of the year. In 2020, there were 1,328,329 usable forms collected and processed. All usable forms were optically scanned and tabulated to produce the results presented here. This survey provided information on visitor characteristics such as party size, visit status, travel method, length of stay, island visitation patterns, accommodations, purpose of trip and demographic data. Some characteristics of respondents were attributed to non-respondents using ascription. The Domestic Survey form is included in Appendix B.

Island Visitor Survey: Surveys were conducted at departure area of the airports on all the islands. From January-March 2020 and November-December 2020, 10,266 completed survey forms were received from the Daniel K. Inouye Airport for O‘ahu specific data, 5,342 completed forms received from Maui, 186 forms from Moloka‘i, 210 forms from Lāna‘i, 3,063 forms from Kaua‘i, 354 forms from Hilo, and 2,059 forms from Kona. The Island Visitor Survey provided island by island specific information such as purpose of trip, accommodation, length of stay and expenditures. The Island Visitor Survey form is included in Appendix B.

Cruise Visitor Survey: The Cruise visitor survey forms are distributed to all cabins on passenger ships in Hawai‘i during the year. Data collected from cruise visitors include purpose of trip, island visitation and spending by island. The questionnaire used on foreign flagged ships did not include on-ship spending. From January – March 2020, a total of 2,680 completed forms were processed for cruise visitor information. The Cruise Survey form is included in Appendix B.

Cruise Ship Passenger Counts Report: All cruise ships which entered Honolulu, Hilo, Kona, Lahaina, Kahului and Nāwiliwili Harbor reported passenger counts to the Department of Transportation, Harbors Division and the Department of Land and Natural Resources. Monthly cruise ship reports are also provided by Hawai‘i.Portcal.com, a synchronized operating system which simplifies scheduling and billing for ports, pilots and agents. HTA obtained monthly cruise ship passenger counts from cruise ship agents and from these harbors. HTA figures specifically look at the number of passengers who arrived in the state on cruise ships. Visitors who flew to Hawai‘i and then boarded the cruise vessel were captured in the surveys of air passengers.

Visitor Plant Inventory Survey: The purpose of this survey is to compile an accurate annual assessment of existing and planned visitor accommodations for the State of Hawai‘i by island, location, property type (hotel, condo-hotel, bed and breakfast, individual vacation units, rental house, hostels, timeshare, and apartment-hotel), and class of units (standard, budget, deluxe, luxury). To access the report online, visit: www.hawaiitourismauthority.org/research/visitor-plant-inventory/

Hawai‘i Hotel Performance Data: STR, Inc. is the source of hotel occupancy rate, average daily room rate and revenue per available room data. Hotel performance statistics are posted on the HTA website: www.hawaiitourismauthority.org/research/infrastructure-research/

Air Seat Statistics: Since 2013, HTA has used airline schedules from Cirium Diio Mi (DIIo) as the source of its data on scheduled air seats. DIIo is an online database of airline industry data used by airlines, airports and destination marketing organizations across the U.S.

Daily Passenger Counts: Published by the State of Hawai‘i Department of Business, Economic Development and Tourism (DBEDT) daily, these are counts of passengers on domestic and international flights, (excludes flights from Canada).
