Statement by DBEDT Director Mike McCartney:

We are pleased to see another milestone in the visitor industry recovery with over 7,000 cruise visitors in January 2022 after 21 months of suspension. Cruise activity is an important part of the overall tourism in the state with cruise visitors accounting for 2.6 percent of Hawai'i's total visitors in 2019.

With the existence of the Omicron variant, visitor arrivals in January 2022 was over 70 percent of the January 2019 level, indicating that the demand for Hawai'i visitation remains strong, especially from the U.S. mainland. Visitation by the U.S. visitors has been surpassing the 2019 levels since May 2021.

Global travel is opening up and we are seeing pent up demand. We expect a strong summer and look forward to welcoming international visitors from Australia, New Zealand and Japan in the second half of the year. Hard decisions were made to protect our communities so as we see positive movement, we must continue to remain vigilant and strategically monitor the stability of COVID-19 spread and the impact of the Russian invasion of Ukraine as it affects oil prices, air lift and consumer demand for travel.

Statement by HTA President and CEO John De Fries:

Hawai'i began the year with positive gains in total visitor spending and per person, per day visitor spending for January, which are two of the Hawai'i Tourism Authority's overall Key Performance Indicators as outlined in our 2020-2025 Strategic Plan. Both measures contribute to the meaningful economic growth needed for our state's recovery.

The visitor industry continues to be a driver of job growth, career opportunities and economic diversification. We continue our mission to Mālama Ku'u Home (caring for my beloved home), working diligently to achieve the balance desired by our communities for the well-being of Hawai'i and generations to come.
